"An amazing and brilliant instruction manual on how to find purpose, build a career, and live a life of fulfillment." – DEEPAK CHOPRA A surefire guide to planning your next career move and discovering the job you really want. Jennifer Turliuk was dissatisfied in her corporate job, so she quit. But she had no idea what to do next. After university, she, like so many graduates, was faced with the choice of either continuing on the career she really wanted. Instead of getting another degree or going back to school to change her career path, Turliuk embarked on a "self-education journey," interviewing and shadowing some of the world's leading professors, founders, and investors from Silicon Valley companies such as Airbnb, Square, and Kiva. What she discovered was not just a new way to think about career, but also a career-design process that would help others do just the same. Turliuk's career-prototyping framework uses tested strategies and exercises, including quantified self, design thinking, and lean methodology to help everyone from recent graduates to mid-career workers looking for a change. Let this book be your guide to finding a career that is right for you.

Yoga, Meet Life. Sometimes an hour-long yoga class is the only chance we get to connect meaningfully with our bodies and our minds during a week otherwise full of work, family, and the daily grind. Have you ever wondered how would it feel to bring that experience of awareness and calm out of the yoga studio and into your everyday life? After all, we know that practicing yoga can give us a benefit the way it makes us feel? In Do Your Om Thing, master yoga teacher and creator of the popular blog OmGal.com Rebecca Pacheco shows us that the true practice of yoga is about much more than achieving the perfect headstand or withstanding an hour-long class in a room heated to 100 degrees. "Yoga is not about performance," she tells us. "It's about practice, on your mat and in your life. Practice. Confidence, compassion, awareness, joy—if you want more of these—and who doesn't?—yoga offers the skills to practice them." In her warm, personal, and often hilarious prose, Rebecca translates yogic philosophy for its twenty-first-century devotees, making ancient principles and philosophy feel accessible, relatable, and genuinely rooted in the world in which we live today. And by illustrating how to bring that experience of awareness and calm out of the yoga studio and into your everyday life, Rebecca shows us that the true power of a yoga practice is not physical transformation, but mental and spiritual liberation.

Recover wasted time and start living your fullest life Most of us wouldn't dare give away our money, but when it comes to time, we let it go without a second thought. Business and creative professionals often dedicate long hours to their work, with little to show for it. We take on more than we should, we treat everything as urgent, and we attend pointless meetings. This book can help you see where you might be sabotaging your own goals. Time Rich helps you identify where you're losing personal time and mismanaging career time. Through practical productivity tools and techniques, author and entrepreneur Steve Glaveski will show you how to be more productive at work, have more time to pursue your personal and life goals, and build a culture that supports achieving objectives without risking burnout. Learn how to:

- *Identity how you are wasting time*
- *Manage your attention, get into the zone and stay there longer*
- *Prioritise, automate and outsource tasks*
- *Optimise your mind and body*

Time Rich is a blueprint for recovering your work hours, achieving more and spending time where it matters most. 'Steve Glaveski understands something that few leaders have figured out: it's possible to do less and get more done. This book offers a blueprint for working smarter.' Adam Grant, *New York Times* best-selling author of *Originals* and *Give and Take*, and host of the chart-topping TED podcast *WorkLife* *'Time isn't money; it's something of far more value. Glaveski makes the case that we ought to be protecting our time much more than we product other resources. And best of all, he shows you how.'* David Burkus, author of *Under New Management* *'Steve Glaveski offers countless ways to get more out of each day by being Time Rich.'* Nir Eyal, best-selling author of *Hooked* and *Indistractable* *'Time Rich by Steve Glaveski makes a compelling argument for abandoning the archaic historical artefact of an 8 hour work-day (or any other arbitrary sum of time) as outmoded and irrelevant to the way we live and do our best work today. Glaveski offers both big ideas and specific techniques to contain or eliminate such time-snatching demons as meetings, email and social media. Reclaim the value of your time by forsaking the management of it and learning instead to manage energy, efficiency and attention — inputs with far greater impact on output and outcomes, not to mention quality of life.'* Whitney Johnson, award-winning author of *Disrupt Yourself* and *Build an A-Team* *'Time Rich is a fascinating look into why we're all so 'busy' — and how to gain back our most precious resource. Whether you're a beginner or a seasoned productivity geek, this book will change your life.'* Jonathan Levi, author, podcaster, and founder of *SuperHuman Academy* *'A very worthwhile read for ambitious professionals to achieve that elusive work-life holy grail: being present and engaged at home without sacrificing anything on the work front — and even, perhaps, becoming more productive than you ever thought you could be.'* Andy Molinsky, award-winning author of *Global Dexterity* and *Reach*

Ben Horowitz, a leading venture capitalist, modern management expert, and New York Times bestselling author, combines lessons both from history and from modern organizational practice with practical and often surprising advice to help executives build cultures that can weather both good and bad times. Ben Horowitz has long been fascinated by history, and particularly by how people behave differently than you'd expect. The time and circumstances in which they were raised often shapes them—yet a few leaders have managed to shape their times. In What You Do Is Who You Are, he turns his attention to a question crucial to every organization: how do you create and sustain the culture you want? To Horowitz, culture is how a company makes decisions. It is the set of assumptions employees use to resolve everyday problems: should I stay at the Red Roof Inn, or the Four Seasons? Should we discuss the color of this product for five minutes or thirty hours? If culture is not purposeful, it will be an accident or a mistake. What You Do Is Who You Are explains how to make your culture purposeful by spotlighting four models of leadership and culture-building—the leader of the only successful slave revolt, Haiti's Toussaint Louverture; the Samurai, who ruled Japan for seven hundred years and shaped modern Japanese culture; Genghis Khan, who built the world's largest empire; and Shaka Senghor, a man convicted of murder who ran the most formidable prison gang in the yard and ultimately transformed prison culture. Horowitz connects these leadership examples to modern case-studies, including how Louverture's cultural techniques were applied (or should have been) by Reed Hastings at Netflix, Travis Kalanick at Uber, and Hillary Clinton, and how Genghis Khan's vision of cultural inclusiveness has parallels in the work of Don Thompson, the first African-American CEO of McDonalds, and of Maggie Wilderotter, the CEO who led Frontier Communications. Horowitz then offers guidance to help any company understand its own strategy and build a successful culture. What You Do Is Who You Are is a journey through culture, from ancient to modern. Along the way, it answers a question fundamental to any organization: who are we? How do people talk about us when we're not around? How do we treat our customers? Are we there for people in a pinch? Can we be trusted? Who you are is not the values you list on the wall. It's not what you say in company-wide meeting. It's not your marketing campaign. It's not even what you believe. Who you are is what you do. This book aims to help you do the things you need to become the kind of leader you want to be—and others want to follow.
