Madame Bovary is the French writer Gustave Flaubert's debut novel. The story focuses on a doctor's wife, Emma Bovary, who has adulterous affairs and lives beyond her means in order to escape the banalities and emptiness of provincial life. Though the basic plot is rather simple, even archetypal, the novel's true art lies in its details and hidden patterns. Flaubert was a notorious perfectionist and claimed always to be searching for le mot juste ("the precise word"). Madame Bovary takes place in provincial northern France, near the town of Rouen in Normandy. The story begins and ends with Charles Bovary, a

stolid, kindhearted man without much ability or ambition. Gustave Flaubert (1821-1880) was an influential French writer who was perhaps the leading exponent of literary realism of his country. The celebrated short story writer Maupassant was a protégé of Flaubert. First Published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

This was all that passed between them on the subject, but henceforth Wendy knew that she must grow up. You always know after you are two. Two is the beginning of the end.

With a writing style reminiscent of Annie Dillard, she captures the essence of the land Down Under and invites others to fall in love with Australia.

The Red and the Black Stendhal - First published in 1830, The Red and the Black, is widely considered the masterpiece of 19th century French author Marie-Henri Beyle, known more commonly by his pen name, Stendahl. It follows the ambitions of Julien Sorel, a young man raised in the French

countryside who wishes to rise above his provincial station by climbing the social ranks of Parisian society. Through a series of events, Juliens talent and hard work give way to deception and hypocrisy when he realizes the limitations for advancement of a sincere and honest man of humble origins. Although Julien achieves much which he aspires to, ultimately his pride gets the better of him when he commits a violent crime of passion, leading to his tragic downfall. Through the deep psychological introspection of Julien we see Stendhals unique literary genius, the remarkable way in which he allows readers to live in the minds of his characters. Set against the backdrop of the July Revolution of 1830, The Red and the Black is a narrative which embodies the rich social conflict of that time. This edition is translated with an introduction by Horace B. Samuel.

Falconer remedies this lack with close readings of six major British works of crossover fiction, and a wide-ranging analysis of the social and cultural implications of the global crossover phenomenon. A uniquely in-depth study of the crossover novel, Falconer engages with a ground-breaking range of sources, from primary texts, to child and adult reader responses, to cultural and critical theory.

Perhaps as early as 1787, Austen began to write poems, stories, and plays for her own and her family's amusement. Austen later compiled "fair copies" of these early works into three bound notebooks, now referred to as the "Juvenilia," containing pieces originally written between 1787 and 1793.

"This is an academic look at the contribution of popular culture to the loss of innocence in today's children."--Publisher.

The fairy tale may be one of the most important cultural and social influences on children's lives. But until *Fairy Tales and the Art of Subversion*, little attention had been paid to the ways in which the writers and collectors of tales used traditional forms and genres in order to shape children's lives – their behavior, values, and relationship to society. As Jack Zipes convincingly shows, fairy tales have always been a powerful discourse, capable of being used to shape or destabilize attitudes and behavior within culture. For this new edition, the author has revised the work throughout and added a new introduction bringing this classic title up to date.

speculative fiction in the 20th century with the emergence of human and civil rights movements, with the communitarian revolution in conceptualizations of justice, and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction. Oziewicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts; that scripts, when narrated, take the form of multiply indexable stories; and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world. Drawing on recent research in the cognitive and evolutionary sciences, Oziewicz explains how poetic, retributive, restorative, environmental, social, and global types of justice have been represented in narrative fiction, from 19th century folk and fairy tales through 21st century fantasy, dystopia, and science fiction. Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice, Oziewicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious, culturally diversified global world. This book is an important contribution to studies of children's and YA speculative fiction, adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres. It demonstrates that the justice imperative is very much alive in YA speculative fiction, creating new visions of justice relevant to contemporary challenges.
