Marc Agronin writes luminously and unforgettably of life as he sees it as a doctor. His beat is a nursing home in Miami that some would dismiss as “God’s waiting room.” Nothing in the young doctor’s medical training had quite prepared him for what he was to discover there. As Agronin first learned from ninety-eight-year-old Esther and, later, from countless others, the true scales of aging aren’t one-sided—you can’t list the problems without also tallying the hopes and promises. Drawing on moving personal experiences and in-depth interviews with pioneers in the field, Agronin conjures a spellbinding look at what aging means today—how our bodies and brains age, and the very way we understand aging.

Each time the "Great God Malone" stepped into the operating room, the world anticipated another miraculous breakthrough in heart surgery. Only two things remained to crown his enormous success: the arrival at the prestigious Malone Heart Institute of a test candidate for his revolutionary artificial heart, and the birth of a legitimate son to bear his name. Theo Malone won't yield his power to anyone, espe-

cially to his three beautiful daughters, all successful doctors in their own right. But they've got enough drive to make it on their own. Lynn, actually a greater surgeon than her father, is torn between the man she loves and the father she hates, and her twin, Lisa, has proven herself the equal of her egotistical parent in both the fields of medicine and romance. Young Laurel, meanwhile, antagonizes Malone by helping to prevent the spread of an epidemic, inadvertently uncovering a scandal that could ruin his reputation forever. A skillful probe into the highly dramatic inner workings of large city hospitals, DOCTOR'S DAUGHTERS

once again shows Frank G. Slaughter to be the peerless master of the medical novel.
