*Online Communication provides an introduction to both the technologies of the Internet Age and their social implications. This innovative and timely textbook brings together current work in communication, political science, philosophy, popular culture, history, economics, and the humanities to present an examination of the theoretical and critical issues in the study of computer-mediated communication. Continuing the model of the best-selling first edition, authors Andrew F. Wood and Matthew J. Smith introduce computer-mediated communication (CMC) as a subject of academic research as well as a lens through which to examine contemporary trends in society. This second edition of Online Communication covers online identity, mediated relationships, virtual communities, electronic commerce, the digital divide, spaces of resistance, and other topics related to CMC. The text also examines how the Internet has affected contemporary culture and presents the critiques being made to those changes. Special features of the text include: \*Hyperlinks--presenting greater detail on topics from the chapter \*Ethical Ethical Inquiry--posing questions on the nature of human communication and conduct online \*Online Communication and the Law--examining the legal ramifications of CMC issues Advanced undergraduates, graduate students, and researchers interested in the field of computer-mediated communication, as well as those studying issues of technology and culture, will find Online Communication to be an insightful resource for studying the role of technology and mediated communication in today's society.*

*On the South Side to tour the Union Stock Yard, people got a firsthand look at Chicago's industrial prowess as they witnessed cattle, hogs, and sheep disassembled with breathtaking efficiency. At their height, the kill floors employed 50,000 workers and processed six hundred animals an hour, an astonishing spectacle of industrialized death.*

*Pacyga chronicles the rise and fall of an industrial district that, for better or worse, served as the public face of Chicago for decades. He takes readers through the packinghouses as only an insider can, covering the rough and toxic life inside the plants and their lasting effects on the world outside. He shows how the yards shaped the surrounding neighborhoods; looks at the Yard's sometimes volatile role in the city's race and labor relations; and traces its decades of mechanized innovations.*

*The reader follows Waldo as he hikes around the world and must try to find him in the illustrations of some of the crowded places he visits, including the past, fantasy worlds, movie sets, and famous works of art.*

American journalist Alice Steinbach took a year off to live in five cities - Paris, Venice, Milan, London and Oxford - when she realized she had entered a new phase of life. Her sons had graduated from college; she had been divorced for a long time; she was a successful journalist. While there was nothing really wrong with her life, she felt restless. Could she live independently of her family, her friends, her career? Steinbach searches for the answer to this provocative question firstly in Paris, where she finds a soul mate in a Japanese man; in Milan, where she befriends a young woman about to marry, and in the evocative cities of Oxford and Venice. Her trip is peppered with accounts of the exotic strangers she meets, her reflections on life and the observational postcards she wrote to herself during her year away.

In 'The Incredible Paper Chase', Wally travels through amazing worlds of dinosaurs, soldiers, clowns and more. He leaves a tiny piece of paper to look for in every scene, and at the end of the book there are checklists with hundreds more things to find.

The search for Wally and his friends continues with this new phenomenal postcard book in the 'Where's Wally?' series. Each scene has been carefully selected from all seven classic titles to provide a sending opportunity for all occasions.

There's More to Books Than Reading

"Plain Dealing" is a book of essays by 25 accomplished Cleveland-area journalists. It's a book of stories, many never told before. It's a first-person account of journalism in Cleveland, life in the newsroom, the issues and events these journalists covered, and the characters they worked with and met. The stories begin in the 1950s and go up to 2013, covering the post-World War II era through the days when Cleveland was a three daily newspaper city, then two, then one. The book ends with the mass layoffs and resulting decline that ushered in "digital-first" age.

In this title there are puzzles to solve, riddles to unravel, tongue twisters to untwist, jokes to chortle over and lots of fascinating facts to enjoy in these two activity books, based on the popular Where's Wally? cartoon strip in The Daily Mail. There are pirates, knights, dinosaurs, leprechauns and mushroom-mining trolls, the Wacky Races, the Dragon Ride and the Feast of Pies. All this, plus Wenda, Woof, Wizard Whitebeard and Odlaw too

By the New York Times bestselling author of The Bone Clocks and Cloud Atlas | Longlisted for the Man Booker Prize Selected by Time as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. Black Swan Green tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of “nightcreeping” through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason’s search to replace his dead grandfather’s irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher’s recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, Black Swan Green is David Mitchell’s subtlest and most effective achievement to date. Praise for Black Swan Green “[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like.”—The Boston Globe “[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall.”—Time

The eureka moment is a myth. It is an altogether naïve and fanciful account of human progress. Innovations emerge from a much less mysterious combination of historical, circumstantial, and accidental influences. This book explores the origin and evolution of several important behavioral innovations including the high five, the Heimlich maneuver, the butterfly stroke, the moonwalk, and the Iowa caucus. Such creations' striking suitability to the situation and the moment appear ingeniously designed with foresight. However, more often than not, they actually arise 'as if by design.' Based on investigations into the histories of a wide range of innovations, Edward A. Wasserman reveals the nature of behavioral creativity. What surfaces is a fascinating web of causation involving three main factors: context, consequence, and coincidence. Focusing on the process rather than the product of innovation elevates behavior to the very center of the creative human endeavor.

Almost twenty-five years after the infamous art heist at the Isabella Stewart Gardner Museum—still the largest unsolved art theft in history—one of the stolen Degas paintings is delivered to the Boston studio of a young artist. Claire Roth has entered into a Faustian bargain with a powerful gallery owner by agreeing to forge the Degas in exchange for a one-woman show in his renowned gallery. But as she begins her work, she starts to suspect that this long-missing masterpiece—the very one that had been hanging at the Gardner for one hundred years—may itself be a forgery. The Art Forger is a thrilling novel about seeing—and not seeing—the secrets that lie beneath the canvas.

*“[An] insightful view on how 9/11 is perceived in American society—the day that ‘refuses to enter history,’ the tragedy that ‘has, in effect, not yet passed.’” —Journal of Popular Culture The day the towers fell, indelible images of plummeting rubble, fire, and falling bodies were imprinted in the memories of people around the world. Images that were caught in the media loop after the disaster and coverage of the attack, its aftermath, and the wars that followed reflected a pervasive tendency to treat these tragic events as spectacle. Though the collapse of the World Trade Center was “the most photographed disaster in history,” it failed to yield a single noteworthy image of carnage.*

*Thomas Stubblefield argues that the absence within these spectacular images is the paradox of 9/11 visual culture, which foregrounds the visual experience as it obscures the event in absence, erasure, and invisibility. From the spectral presence of the Tribute in Light to Art Spiegelman’s nearly blank New Yorker cover, from the elimination of the Twin Towers from TV shows and films to the monumental cavities of Michael Arad’s 9/11 memorial, the void became the visual shorthand for the incident. By examining configurations of invisibility and erasure across the media of photography, film, monuments, graphic novels, and digital representation, Stubblefield interprets the post-9/11 presence of absence as the reaffirmation of national identity that implicitly laid the groundwork for the impending invasions of Iraq and Afghanistan. “A concise, engaging, and thought-provoking work that asks the reader to reassess their knowledge and relationship to that moment and the resulting milieu of post 9/11 life in America.”*

—ARLIS/NA Reviews “Extraordinarily brilliant . . . will change how we think about disasters and tragedies. The book is a must-read for both students and practitioners of media studies.” —Repository

*Empire of Ecstasy offers a novel interpretation of the explosion of German body culture between the two wars: nudism and nude dancing, gymnastics and dance training, dance photography and criticism, and diverse genres of performance from solo dancing to mass movement choirs. Karl Toepfer presents this dynamic subject as a vital and historically unique construction of “modern identity,” which stimulated often contradictory impulses, desires, and ambitions in participants and enthusiasts. Through the presentation and analysis of unpublished archival material (including many little-known photographs) and the reclamation of forgotten discourses of fashion, gymnastics, nudism, and the visual arts, he investigates the process of constructing an “empire” of appropriative impulses toward ecstasy. Toepfer presents the work of well-known figures such as Rudolf Laban, Mary Wigman, and Oskar Schlemmer, as well as many obscure but equally fascinating practitioners of German body culture. His book is certain to become required reading for historians of dance, body culture, and modernism.*

Winner of the 2021 Golden Scroll Awards for Memoir of the Year and Christian Market Book of the Year awarded by the Advanced Writers and Speakers Association FIRST PLACE WINNER IN THE MEMOIR CATEGORY OF THE 2022 SELAH AWARDS For five decades, comedian, actor, singer, dancer, and entertainer Bob Hope (1903–2003) traveled the world performing before American and Allied troops and putting on morale-boosting USO shows. Dear Bob . . . : Bob Hope’s Wartime Correspondence with the G.I.s of World War II tells the story of Hope’s remarkable service to the fighting men and women of World War II, collecting personal letters, postcards, packages, and more

sent back and forth among Hope and the troops and their loved ones back home. Soldiers, nurses, wives, and parents shared their innermost thoughts, swapped jokes, and commiserated with the “G.I.s’ best friend” about war, sacrifice, lonely days, and worrisome, silent nights. The Entertainer of the Century performed for millions of soldiers in person, in films, and over the radio. He visited them in the hospitals and became not just a pal but their link to home. This unforgettable collection of letters and images, many of which remained in Hope’s personal files throughout his life and now reside at the Library of Congress, capture a personal side of both writer and recipient in a very

special and often-emotional way. This volume heralds the voices of those servicemen and women whom Hope entertained and who, it is clear, delighted and inspired him.
