Do you have a problem that needs fixing? A wish that needs granting? A desire for love, a need for protection, or maybe just great parking? Look no further than the local grocery store! Experienced psychic, witch, and high priestess Lexa Roséan offers spells for every occasion in this amusing, magically effective, and easy-to-follow guide. Formulating spells based on history and legend, Lexa tailors tried-and-true Ancient Magick to the modern reader, substituting hard-to-find wild ingredients with their supermarket counterparts, resulting in spells that are simple and inexpensive. By following some simple rules--performing spells at a certain time of month, using fresh ingredients, with a specific intent--Lexa makes it possible for even the most inexperienced spell caster to successfully perform magick and get results. The Supermarket Sorceress is the first in a series of four books offering spells and enchantments using simple grocery-store ingredients. Originally published in 1996, this updated version includes new and revised spells and an introduction looking back 20 years and reflecting on the circumstances that inspired the original publication and launched the "Supermarket Sorceress"

identity.

Neuroscience has made astounding progress in the understanding of the brain. What should we make of its claims to go beyond the brain and explain consciousness, behaviour and culture? Where should we draw the line? In this brilliant critique Raymond Tallis dismantles "Neuromania", arising out of the idea that we are reducible to our brains and "Darwinitis" according to which, since the brain is an evolved organ, we are entirely explicable within an evolutionary framework. With precision and acuity he argues that the belief that human beings can be understood in biological terms is a serious obstacle to clear thinking about what we are and what we might become. Neuromania and Darwinitis deny human uniqueness, minimise the differences between us and our nearest animal kin and offer a grotesquely simplified account of humanity. We are, argues Tallis, infinitely more interesting and complex than we appear in the mirror of biology. Combative, fearless and thought-provoking, *Aping Mankind* is an important book and one that scientists, cultural commentators and policy-makers cannot ignore. This Routledge Classics edition includes a new preface by the Author. Tap into the mythic power of the Celtic goddesses, gods, heroes, and heroines to aid your spiritual quests and magickal goals. Human and divine energies complement each other; when joined, they become a potent catalyst for true magick and change. Celtic

Myth & Magick describes the energies of over 300 cross-referenced Celtic deities and heroic figures so you can quickly determine which one can best help you in attaining specific goals through magick—such as greater prosperity (Cernunnos), glowing health (Airmid), or a soul partner (Aengus MacOg). This guidebook explains how to use creative Pagan ritual and pathworking to align yourself with the energy of these powerful archetypes. Undertake three magickal quests to the inner plane—where you'll join forces with Cuchulain, Queen Maeve, and Merlin the Magician to bring their energies directly into your life. This inspiring, well-researched book is written especially for solitary Pagans who seek to expand the boundaries of their practice to form working partnerships with the divine.

A powerful exploration of Black achievement in a white world based on honest, provocative, and moving interviews with Black leaders, scientists, artists, activists, and champions. "I remember the day I realized I couldn't play a white guy as well as a white guy. It felt like a death sentence for my career." When Chad Sanders landed his first job in lily white Silicon Valley, he quickly concluded that to be successful at work meant playing a certain social game. Each meeting was drenched in white slang and the privileged talk of international travel or folk concerts in San Francisco, which led Chad to believe he needed to emulate

whiteness to be successful. So Chad changed. He changed his wardrobe, his behavior, his speech—everything that connected him with his Black identity. And while he finally felt included, he felt awful. So he decided to give up the charade. He reverted back to the methods he learned at the dinner table, or at the Black Baptist church where he'd been raised, or at the concrete basketball courts, barbershops, and summertime cookouts. And it paid off. Chad began to land more exciting projects. He earned the respect of his colleagues. Accounting for this turnaround, Chad believes, was something he calls Black Magic, namely resilience, creativity, and confidence forged in his experience navigating America as a Black man. Black Magic has emboldened his every step since, leading him to wonder: Was he alone in this discovery? Were there others who felt the same? In moving essays, Chad dives into his formative experiences to see if they might offer the possibility of discovering or honing this skill. He tests his theory by interviewing Black leaders across industries to get their take on Black Magic. The result is a revelatory and very necessary book. Black Magic explores Black experiences in predominantly white environments and demonstrates the risks of self-betrayal and the value of being yourself.

Illustrator and author Lauren White uses her characteristic wit and charm to create these two illustrated books of magical spells. *Spells for a Perfect Love Life* and *Spells for Self-Improvement* offer a variety of creative spells for these two popular themes. These enchanting books are filled with spells, potions, and magic for love and self-improvement. Funny, touching, and entertaining, these books make perfect gifts. Sample spell, "Opening the Door": Forget "feng shui." This spell is all you'll ever need to chase away bad vibes, energize your space, and generally rev up the atmosphere. This spell should be performed when there is a new moon-preferably in late winter/early spring. You will need: a fine paintbrush, spring water, myrtle leaves, pine needles, your own door key. Wearing your favorite item of clothing will increase the potency of this spell. Method: 1) Place myrtle and pine needles in a bowl. 2) Add one cup of spring water. 3) Wait for the moon to rise to its highest point. 4) Place the key in the bowl. 5) With the paintbrush "paint" this water around your doorway. This will give it an immediate magical energy. 6) The metaphorical door is now wide open for good things to flow through.

“A rare gem. One of the only magical self-help books that is beautiful, moral, and wise. Marion’s methods of working have greatly influenced my life.” —Margot Adler, author of Drawing Down the Moon “Written by one of America’s Witch elders, this revised and expanded edition of this beloved classic can enrich the spiritual practice of longtime practitioners as well as those beginning their explorations of magical realms.”

—Selena Fox, High Priestess, Circle Sanctuary, Psychotherapist & Shamanic Healer “Well written and fascinating, Positive Magic is a book you must read and keep by your side. Weinstein explains what you need to know and does it in a way that keeps you all the way through. An intelligent approach to using magic in your life.” —Merlin Stone, author of When God Was a Woman and Ancient Mirrors of Womanhood Here is a new edition of one of the best-loved introductions to magic that is still used in metaphysical classes around the world. The author makes ancient magic techniques accessible, offering them as practical tools for daily life. Addressing the needs of today’s readers—beginners and adepts alike—the author provides well-researched historical background on astrology, witchcraft, tarot, and the I Ching as well as channeling, spirit contact, and the connections between quantum physics and traditional magic.

This book carries on the tradition of the solo village witch emphasizing white rather than black magic. It is a practical manual of instruction for those who choose the solo path of study and particularly stresses the importance of being in tune with nature. As there are approximately 13 moons each year – the book is divided into 13 parts. Each section is aimed at lasting from the new moon to the dark to make the student fully aware of the changing power in the tides of the sea and the tides of the self. The moon-long sections deal with a variety of traditional arts, skills and mental exercises which

enables the aspiring witch to discover the inner world of magic inside him/herself. Note that it has not been possible to include the same picture content that appeared in the original print version.

Peter, Michael and Emma are strangers, each despatched by their parents for a week's holiday with the Myers in their cottage at the foot of a Welsh mountain. Coincidence? Or has the strange neighbour, Mrs White, somehow lured them to enact an awesome quest? They are an uneasy trio, uncomfortable in their forced alliance, and they face their circumstances in very different ways - Mrs Myers anxious 'mothering', the enigmatic Mrs White, and the swirling sense of fear that seems trapped in the lane running past her house, her stories of Arthur's Way, the old straight track shrouded in legend that leads straight to the peak of the mountain, and her obsession with diverting the spring at the top. There are peculiar visitors and strange warnings, yet the children feel compelled to set off up Arthur's Way at the most dangerous time of year. What they discover, about unseen forces on earth, about the price of disturbing nature, about themselves, leads to a gripping climax in a spell-binding tale. The first collection of poetry in English by a noted Polish poet.

An invaluable introduction to the life and work of one of today's most important cultural critics. Studied on most undergraduate literary and cultural studies courses, Fredric Jameson's writing targets subjects from architecture to science fiction, cinema to global capitalism. Of his works, *The Political Unconscious* remains one of the most widely cited Marxist literary-theoretical texts, and *'Postmodernism, or the cultural*

logic of late capitalism', is amongst the most influential statements on the nature of post-modernity ever published. Adam Roberts offers an `ngaging introduction to this crucial figure, which will convince any student of contemporary theory that Jameson must be read.

This series of books written by Tudorbeth explore and explain the occult transformations that exist between and within the seasons. One of The Millions' Most Anticipated Books of 2021.

Lyrical and unforgettable, part elegy and part memoir, we present a previously unpublished masterpiece from the Beat Generation icon. Simultaneously released with an expanded edition of di Prima's classic *Revolutionary Letters* on the one-year anniversary of her passing. In the autumn of 1964, Diane di Prima was a young poet living in New York when her dearest friend, dancer, choreographer, and Warhol Factory member, Freddie Herko, leapt from the window of a Greenwich Village apartment to a sudden, dramatic, and tragic death at the age of 29. In her shock and grief, di Prima began a daily practice of writing to Freddie. For a year, she would go to her study each day, light a stick of incense, and type furiously until it burned itself out. The narrative ranges over the decade from 1954—the year di Prima and Herko first met—to 1965, with occasional forays into di Prima's memories of growing up in Brooklyn. Lyrical, elegant, and nakedly honest, *Spring and Autumn Annals* is a moving tribute to a friendship, and to the extraordinary innovation and accomplishments of the period.

Masterfully observed and passionately recorded, it offers a uniquely American portrait of the artist as a young woman in the heyday of bohemian New York City. Praise for *Spring and Autumn Annals*: "The book is a treasure. Moving between the East Village, San Francisco, Topanga Canyon and Stinson Beach with young children, di Prima's life is unbelievably rich. She studies Greek, writes, prepares dinners and feasts, and co-edits *Floating Bear* magazine. Diane di Prima is one of the greatest

writers of her generation, and this book offers a window into its lives." "Chris Kraus "Extolled by a writer who radically devoted herself to the experiential truth of beauty and intellect, in poverty and grace, in independent dignity, and in the community of Beat consciousness, Diane di Prima's *Spring and Autumn Annals* arrives as a long-lost charm of illuminated meditations to love, life, death, eros and selflessness. An essential 1960s text of visionary rapaciousness." "Thurston Moore "Freddie Herko wished for a third love before he died; and what a love is in this book's beholding, saying, and release. Di Prima's dancing narrative, propelled and circling at the speed of thought, picking up every name and detailed perception as a rolling tide, fills me with gratitude for the truth of her eye. Nothing gets past it, not even the 'ballet slippers letting in the snow.'" "Ana Božičević "A masterpiece of literary reflection, as quest to archive her dancer friend's life, to make art at all costs and the price dearly paid. Di Prima's observational capacity is profound, her devotion and loyalty assures her deserved place as a national treasure. She generously instills in us the call of poetic remembrance as an act of resistance, and gives voice to the marginalized participants in experimental cultural movements that carried courage in creative rebellion while envisioning freedom of the human spirit. Di Prima's poetic memoir of the artist journey is a triumph. A must read and reread for years to come." "Karen Finley

The material symbol has become central to understanding religion in late modernity. Overtly theological approaches use words to express the values and faith of a religion, but leave out the 'incarnation' of religion in the behavioural, performative, or audio-visual form. This book explores the lived experience of religion through its material expressions, demonstrating how religion and spirituality are given form and are thus far from being detached or ethereal. Cutting across cultures, senses, disciplines and faiths, the contributors register the variety in which religions and religious groups express the sacred and numinous. Including chapters on music, architecture, festivals, ritual, artifacts, dance, dress and magic, this book offers an invaluable resource to students of sociology and anthropology of religion, art, culture, history, liturgy, theories of late modern culture, and religious studies.

Experience the magic of springtime as it comes to life with flowers blooming, birds singing and many other signs that make spring aglow. The inspiration for this book was the result of the author's final exam for a Children's Literature class at Ohio University in the spring of 1966. At that time, the author's professor suggested that it was worthy of being published. The book was then put in a closet and read from time to time to younger family members. Fifty-two years later, "How Do We Know That Spring's Aglow" is a timeless theme that is enjoyed as much by readers today as it was when it was written in 1966.

What starts as a straightforward magical mission turns deadly. Spring Thorne's life is a mess. The man Spring loves seems to loathe her, family enemies are coming out of the woodwork, and her mother remains in a twenty-year stasis, waiting on ancient artifacts to revive her. When Spring's uncle asks her to retrieve one of the final two objects, she jumps at the chance--until she finds out dear old Uncle Alastair has also recruited Knox Carlyle; the recent bane of her not-so-idyllic existence. Knox Carlyle avoids Spring at all costs. Since the day she became an adult, she's made it her mission

to attract his notice. He refuses to allow himself to love her, believing his dark past eliminates any chance they have to be together. But with every look, every touch, his hard-won determination weakens. With an army of Dé sorcelers determined to capture or kill witches at every turn, Knox is compelled to protect Spring from her own stubborn tendency to charge into trouble even if it means following her to South America to retrieve a powerful amulet. But when Knox fails to protect Spring, he is forced to go to extremes in order to save the only woman he's ever loved. Spring Magic is the fourth installment in the epic Thorne Witches series. Experience the magic today!
