*cells make energy when, as you may have guessed from the name, there is no available oxygen. In fact, for this process there is neither oxygen nor mitochondria present. The two processes that allow this to work are those of glycolysis and fermentation. In cellular respiration, what we normally see is glucose breaks down to pyruvate and from this process we net 2 ATP. Next, the pyruvate will go into the mitochondria and enter the Krebs cycle. In the process of being converted to acetyl CoA, CO<sub>2</sub> is given off and another 2 ATP are made. This energy is*

The AP Biology Vocabulary Workbook is an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with*

concepts; so I thought of a great idea. Why not simplify these hard subjects in 1/4 of the material, through easy to understand examples and typical college vocabulary. What I have done here is pretty much taken a biology textbook along with my notes and many other sources and thrown out all the unnecessary long explanations, vocabulary, etc., and simplified it into one easy to understand book complete with examples and solutions. This book can be used as a study guide for biology class (high school, AP, college). I look forward to any feedback you may have as well. It may seem

that some parts of this book are too simple, or do not have enough information written. Do not worry; I have revised this book to make it like this, as simple as possible to the average person, in order to help them understand physics. This is the way biology should be. I have searched books, notes, online, etc. and tried to make every explanation as simple as possible, yet you'll learn just as much as you would with a regular textbook in less time
