Most people consider life a battle, but it is not a battle, it is a game. It is a game, however, which cannot be played successfully without the knowledge of spiritual law, and the Old and the New Testaments give the rules of the game with wonderful clearness. Jesus the Christ taught that it was a great game of Giving and Receiving. If we give hate, we will receive hate; if we give love, we will receive love; if we give criticism, we will receive criticism; if we lie we will be lied to; if we cheat we will be cheated. We are taught also, that the imaging faculty plays a leading part in the game of life. Keep thy heart (or imagination) with all diligence, for out of it are the issues of life." (Prov. 4:23.)

SUMMARY – Who Moved My Cheese By Spencer Johnson

For years, Robert Kiyosaki has firmly believed that the best investment one can ever make is in taking the time to truly understand how one's finances work. Too many people are much more interested in the quick-hitting scheme, or trying to find a short-cut to real wealth. As Kiyosaki has preached over and over again, one has to truly understand the process of how money works before one can start out on trying to escape the daily financial Rat Race. Now, in this latest book in the popular Rich Dad Poor Dad series, Kiyosaki lays out his 5 key principles of Financial Intelligence for all to understand. In INCREASE YOUR FINANCIAL IQ, Kiyosaki provides real insights on these key steps to wealth:

- o How to increase your money -- how to assess what you're really worth now, what your prospects are, and how to start mapping out your financial future.*
- o How to protect your money -- for better or for worse, taxes are a way of life. Kiyosaki shows you that "it's not what you make....it's what you keep."*
- o How to budget your money -- everybody wants to live large, but you have to learn how to live within your budget. Kiyosaki shows you how you can.*
- o How to leverage your money -- as you build your financial IQ, knowing how to put your money to work for you is a crucial step.*
- o How to improve your financial information -- Kiyosaki shows you how to accelerate your wealth as you learn more and more.*

*How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston. CommonInterwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution is available as a DVD sold separately.*

*The author of *Negotiating the Impossible* "tackles our assumptions about business and life with humor, zest, and wisdom in this delightful fable" (Daniel H. Pink, New York Times-bestselling author). If you were a mouse trapped in a maze and someone kept moving the cheese, what would you do? In a world where most mice dutifully accept their circumstances, ask no questions, and keep chasing the cheese, Deepak Malhotra tells an inspiring story about three unique and adventurous mice—Max, Big, and Zed—who refuse to accept their reality as given. *I Moved Your Cheese* reveals what is possible when we finally discard long-held and widely accepted assumptions about how we should live our lives. After all, achieving extraordinary success, personal or professional, has always depended on the ability to challenge assumptions, reshape*

*the environment, and play by a different set of rules—our own. But rejecting deeply ingrained beliefs is not easy. As Zed explains, “You see, Max, the problem is not that the mouse is in the maze, but that the maze is in the mouse.” “Deepak Malhotra allows you to glimpse a world of your own making without the limits and barriers that others create.” –Stephen R. Covey, New York Times–bestselling author of *The 7 Habits of Highly Effective People* “A magnificent story with a powerful message. As someone who has encouraged scores of professionals into breaking through the maze and defining their own pursuits, I find this to be a gem of a book.” –Vinod Khosla, cofounder, former CEO and Chairman, Sun Microsystems, and founder, Khosla Ventures “This book’s message is both profound and durable. Malhotra has left the maze, and so can we.” –Foreword Reviews*

A revolutionary approach to understanding the emotional dynamics within our working lives. 'Nobody understands the everyday madness of working life better than Naomi Shragai. This book should be read by everyone who ventures anywhere near an office' - Lucy Kellaway You probably don't realise this, but every working day you replay and re-enact conflicts, dynamics and relationships from your past. Whether it's confusing an authority figure with a parent; avoiding conflict because of past squabbles with siblings; or suffering from imposter syndrome because of the way your family responded to success, when it comes to work we are all trapped in our own upbringings and the patterns of behaviour we learned while growing up. Many of us spend eighteen formative years or more living with family and building our personality; but most of us also spend fifty years - or 90,000 hours - in the workplace. With the pull of the familial so strong, we unconsciously re-enact our personal past in our professional present - even when it holds us back. Through intimate stories, fascinating insights and provocative questions that tackle the issues that cause us most problems - from imposter syndrome and fear of conflict to perfectionism and anxiety - business psychotherapist Naomi Shragai will transform how you think about yourself and your working life. Based on thirty years of expertise and practice, Shragai will show you that what is holding you back is within your gift to change - and the first step is to realise how you, like the rest of the people you work with, habitually confuse your professional present with your personal past.

THE MANUAL FOR LIVING is the first and best primer for living the best possible life -- as helpful in the twenty-first century as it was in the first. Epictetus's teachings rank among the greatest wisdom texts of human civilization. Epictetus taught that philosophy is a way of life and not just a theoretical discipline. To Epictetus, all external events are beyond our control; we should accept calmly and dispassionately whatever happens. However, individuals are responsible for their own actions, which they can examine and control through rigorous self-discipline. By putting into practice the ninety-three wise instructions that make up *The Art of Living*, readers learn to successfully meet the challenges of everyday life.

This is the Marathi translation of famous classic - WHO MOVED MY CHEESE. Written in the form of a fable, this book features two mice and two 'little people', essentially miniature humans. The mice are named Sniff and Scurry, while the little people are named Hem and Haw. They all live in a maze, a model of the outside world. Initially without cheese, both groups go looking for cheese in pairs. One day, both groups find a cheese-filled corridor at Cheese Station C. The human establish routine around this cheese station and eventually become arrogant. Upon arriving at Cheese Station C one day, Hem and Haw see that the cheese is over. However, they are not surprised as they noticed the quantity slowly dwindling and are mentally prepared for the arduous task of finding more cheese. Later, Hem and Haw arrive and see the cheese missing. They are angered, with Hem exclaiming "Who moved my cheese?". Realising the apparent finality of their situation, Hem and Haw mourn the unfairness of life. Eventually Haw realises that they ought to step out of their despair and go looking for more cheese. Although initially discouraged by Hem and his negativity, Haw sets out. Before he leaves, he jots down messages on the wall, "If you do not change, you can become extinct" and "What would you do if you weren't afraid?", in the hope that it will inspire his friend. In the meanwhile, the two mice have found a better cheese source in Cheese Station N. Full of fear and even more filled with determination, Haw searches and finally finds Cheese Station N, full of cheese, even some new varieties. All along his journey he left 'writings on the wall' for his friend. Still hopeful that he would gradually see the folly in his obstinate ways and come looking for new cheese.
