God is forever writing our story, and He gives us the dignity of being able to introduce characters that occasionally wrinkle the plot. Often we fear that we’ve permanently changed the trajectory of what might have been if we’ld only been more obedient or pious. He smiles at this. He alone knows how many pages He has left before He needs to bring resolve, and He knows that it’s going to be okay. Jesus Killed My Church is the story of a church plant that should have gone gangbusters yet managed to go bust, and a church planter who learned that the only measure of success is recognizing the leadership of Jesus as perfect. Randy Bohlander relays his lessons learned in a humorous way that drives home a point ¶ that God has a plan even when ours fall apart.

How safe is your marriage? The answer may surprise you. The biggest threat to any marriage isn’t infidelity or miscommunication. The greatest enemy is ordinary. Ordinary marriages lose hope. Ordinary marriages lack vision. Ordinary marriages give in to compromise. Ordinary is the belief that this is as good as it will ever get. And when we begin to settle for ordinary, it’s easy to move from ¶I do! to ¶I’m done.¶ Justin and Trisha Davis know just how dangerous ordinary can be. In this beautifully written book, Justin and Trisha take us inside the slow fade that occurred in their own marriage/each telling the story from their own perspective. Together, they reveal the mistakes they made, the work they avoided, the thoughts and feelings that led to an affair and near divorce, and finally, the heart-change that had to occur in both of them before they could experience the hope, healing, and restoration of a truly extraordinary marriage.

In his exceptionally thought-provoking and moving memoir, neurosurgeon Joseph D. Stern explores how personal loss influences the way physicians relate to patients and their families. How does a doctor who deals with the death of patients on a regular basis confront his own loss when his beloved sister is living out her last days? Despite a career as a neurosurgeon, Joseph Stern learned more about the nature of illness and death after his younger sister, Victoria, developed leukemia than his formal medical training ever taught him. Her death broke down the self-protective barriers he had built to perform his job and led to a profound shift in his approach to medicine. During the year of his sister’s illness, Dr. Stern developed a greater awareness of the needs of patients and their families, of the burdens they carry, of the importance of connection, communication, and gratitude; and of what it means to ask the right questions. Grief Connects Us bridges the gap between patients and doctors, providing a window into their shared concerns. Interspersing reflections from Victoria’s journal, stories of patients and colleagues, and insights from experts, Dr. Stern has orchestrated a symphony of voices guiding us toward greater mutual understanding and appreciation of the beauty and fragility of life. No matter which side of the patient-doctor relationship you find yourself on, listening with empathy, a willingness to be vulnerable, and emotional agility are skills we can all develop to improve how we meet difficult, unavoidable challenges.

Character development for communities of faith Mark Olson believes that trying to meet unrealistic expectations for church growth, along with expectations that pastors be all things to all people, has resulted in low morale, even burnout, among clergy and dissension within congregations.Olson’s book argues that church-growth models exemplify and exacerbate the tendencies of the modern age and Constantinian Christianity, holding the church hostage to technique and marketing. These assumptions set up pastors and churches for disappointment and failure. But they also, in his opinion, miss an opportunity to envision a faithful alternative to the consumeristic church.Olson’s valuable book calls church leaders to faithful, bold, and courageous rethinking of congregational life and witness in substance, purpose, and style. His own 20 years of ministry in rural, suburban, and urban congregations inform an alternative rooted deeply in the past and anchored in strong leadership and worship, but also profoundly compassionate and engaged in the surrounding community. In this model, pastors’ primary responsibilities are not to fix everything and everybody but to enable people to be present to each other and to provide hope.

Four unforgettable characters set out to find their church building after it has been physically moved. But how they go about locating it and what they do once they find it is so different, humorous, entertaining, and thought provoking. Ideal for discussion in homes, small groups, Sunday School classes and churches.

G. Travis Norvell challenges church leaders and members-persistently asking them and their respective churches what they are doing to make a real difference in others’lives. The author proposes that the people of the "living church" start moving in, around, and with their communities to truly move toward renewal and social justice, drawing on his own experiences as a church pastor who walked, rode his bike, and took the bus as he went about his work. The book provides concrete, practical ways for the church body and individuals to begin implementing this movement, including study questions, suggested resources, and "experiments" between chapters that can help them find the ways that work best in their respective contexts

Conflict abounds in the church of Jesus Christ. Reconciliation within the body, however, will not happen with the right 'method' or 'set of principles.' In Making Peace, readers are challenged to place their church and all of its dissension under the Lordship of Jesus Christ.

Randy Pope has created a blueprint for pastors and church planters with The Intentional Church. Such an organization must model a dynamic spirit of worship and servanthood that will cause it to become a magnet for people needing help. Part of the blueprint involves having a God-honoring purpose, a faith-oriented commitment, a well-defined mission, biblically-based job descriptions, and more. A relevant resource for pastors and lay persons.

• Evangelism for a world that hates evangelism, but needs the church • The unfolding vision of a church stepping into the future, instead of dwelling in the past The old way of " being church " —measured by political influence, money, and congregants in the pews—may indeed be vanishing, but it is being replaced by something new and beautiful for those with the eyes, ears, heart, and soul to experience it. Prolific author Greg Garrett reminds Episcopalians of the many gifts that our tradition can offer a doubting and hurting world. He reveals a church that values intellect, beauty, diversity, and community, and promotes thoughtful engagement with questions of faith, ethics, and community. This church espouses a generous orthodoxy, welcoming left and right, mystic and doubter. It values education, social justice, and engagement with literature and culture. And in opposition to the radical individualism espoused by most of American Protestantism, it offers the unique gift of a tradition shaped by English culture that believes the individual is a part of her or his community—not in opposition to it.

Despite Jesus’ prayer that all Christians “be one,” divisions have been epidemic in the body of Christ. Though we may think we know why this happens, Christena Cleveland says we probably don’t. Learn the hidden reasons behind conflict and divisions, the unseen dynamics at work that tend to separate us from others. Here are the tools we need to build bridges.

A challenging, innovative approach to a delicate subject. It's sure to benefit church leaders and members of all ages who dream of a "reinvented" church. —Publishers Weekly Has your church been stolen out from under you? A storm hits a small New England town late one evening, but the pelting rain can’t keep a small group of church members from gathering to discuss issues that lately have been brewing beneath the surface of their congregation. They could see their church was changing. The choir had been replaced by a fl ash-y "praise band." The youth no longer dressed in their "Sunday best." The beautiful pipe organ sat unused. How will this group overcome a deepening rift in their fellowship and nourish the relationship between the young and old? Can their church survive or even thrive? Who Stole My Church? is a fictional story that tells the all too real tale of many church communities today. In this book you can walk alongside an imaginary community, led by real life pastor Gordon MacDonald and his wife, Gail, and discover how to meet the needs of all believers without abandoning the dreams and desires of any.

In the grip of serious numerical decline, American Evangelical churches are now experiencing a missional movement. God is calling his people to return to a biblical lifestyle that goes full circle in continual worship, discipleship, and missions. Mark Powers connects the dots between these three main elements of authentic Christian living. He presents a theology of missional worship, a detailed discipleship plan, and a strategy for local music missions. Going Full Circle uses everyday language to present a simple thought process to move worshippers and worship leaders to become worshiping disciples on mission. Are you a casualty of worship wars? Are you worried about the decline of your church? Are you thrilled with fast growth churches but sense there must be something more than spectator worship? Are you confused by the word "missional" that seems to be popping up everywhere? This book is for you and your friends. Read it, share it, and join the movement!

Has your church been hijacked? Millions of people in their fifties, sixties, and seventies feel their churches have been hijacked by church-growth movements characterized by loud praise bands, constant PowerPoint presentations, and cavernous megachurches devoid of any personal touch. They are bewildered by the changes, and are dropping out after thirty, forty, or fifty years in a congregation. It’s a crisis! In this fictional story, pastor and author Gordon MacDonald uses topical examples and all-too-familiar characters to reassure readers that it is possible to embrace change, and to demonstrate how that change can actually be a positive influence in their church. The church, he says, has always been in a state of change; it has been changing for the last two thousand years. It is time to embrace that change and use it further the Kingdom of God

Through a critical examination of the Korean diaspora in transnational contexts as a case study, Korean Digital Diaspora: Transnational Social Movements and Diaspora Identity unmarks the process of how people of the diaspora have built social interactions and communication with others online, how they have orchestrated social movements, and finally, how they have narrated and reshaped their diaspora identities in their everyday lives. Utilizing an ethnographical approach, including in-depth interviews, participant observation, and a field study in New York City and Philadelphia, Hojeong Lee delineates how digital media technology has expanded into a new form of diaspora, digital diaspora, within the Korean diaspora community, and how it has mobilized the social movements of Korean diaspora members. Accordingly, Korean diaspora members have begun to imagine their community as a transnational global diaspora. Korean Digital Diaspora concludes with an analysis of how the changed attitudes of diaspora members have also influenced how they define themselves and how they are reshaping their diaspora identities. This multi-site, three-year study reveals the nexus of media, individuals, and society, highlighting the transnational social movements of diaspora members.

Who Moved My Pulpit? may not be the exact question you ’re asking. But you ’re certainly asking questions about change in the church—where it ’s coming from, why it ’s happening, and how you ’re supposed to hang on and follow God through it—even get out ahead of it so your church is faithfully meeting its timeless calling and serving the new opportunities of this age. Based on conversations with thousands of pastors, combined with on-the-ground research from more than 50,000 churches, best-selling author Thom S. Rainer shares an eight-stage roadmap to leading change in your church. Not by changing doctrine. Not by changing biblical foundations. But by changing methodologies and approaches for reaching a rapidly changing culture. You are the pastor. You are the church staff person. You are an elder. You are a deacon. You are a key lay leader in the church. This is the book that will equip you to celebrate and lead change no matter the cost. The time is now.

We are living in angry times. No matter where we go, what we watch, or how we communicate, our culture is rife with conflict. Unfortunately, Christians appear to be caught up in the same animosity as the culture at large. We are perceived as angry, judgmental, and defensive, fighting among ourselves in various media while the world looks on. How have we failed to be a people of reconciliation and renewal in the face of such tumult? Claiming that the church has lost itself in the grip of an antagonistic culture, David Fitch takes a close look at what drives the vitriol in our congregations. He traces the enemy-making patterns in church history and diagnoses the divisiveness that marks the contemporary evangelical church. Fitch shows a way for the church to be true to itself, unwinding the antagonisms of our day and making space for Christ’s reconciling presence in our day-to-day lives. He offers new patterns and practices that move the church beyond making enemies to being the presence of Christ in the world, helping us free ourselves from a faith that feeds on division.

Is it possible to disagree politically and love unconditionally? The reaction of evangelicals to political and cultural shifts in recent years revealed what they value most. Lurking beneath our Bible-laced rhetoric, faith claims, books, and sermons is a relentless drive to WIN! But the church is not here to win. By every human measure, our Savior lost. On purpose. With a purpose. And we are his body. We are not in it to win anything. We are in it for something else entirely. That something else is what this book is about. You’ll discover: How to take a stand the right way. You’ll learn how to make your case with a posture of humility and understanding, rather than being fueled by the fear of losing something. How to view politics through the lens of faith. Learn curiously, listen intentionally, and love unconditionally. How the life of Jesus and his teaching applies to modern-day challenges in a fresh way. The “biblical” stand may not be what we’ve been taught. Jesus never asked his followers to agree on everything. But he did call his followers to obey a new command: to love others in the same way he has loved us. Instead of asserting our rights or fighting for power, we need to begin asking ourselves: what does love require of me?

Church on the Move

To God be the glory! Moved by the Spirit is a passionate, Spirit-led devotional that touches the hearts and souls of all who read it. Inspired by medieval monastics, Symeon and Anselm, author Craig M. Prather’s heavy use of free-thought, metaphor, and simile will compel the reader to dive further into prayer and meditation. This book is full of theological nuggets and truths and is a great tool for one who is looking to be inspired, convicted, or simply awestruck by the word of God.
