

Why Good People Cant Get Jobs

From the author of Burial Rites, "a literary novel with the pace and tension of a thriller that takes us on a frightening journey towards an unspeakable tragedy."-Paula Hawkins, bestselling author of The Girl on the Train and Into the Water Based on true events in nineteenth century Ireland, Hannah Kent's startling new novel tells the story of three women, drawn to rescue a child from a superstitious community. Nora, bereft after the death of her husband, finds herself alone and caring for her grandson Michael, who can neither speak nor walk. A handmaid, Mary, arrives to help Nora just as rumors begin to spread that Michael is a changeling child who is bringing bad luck to the valley. Determined to banish evil, Nora and M enlist the help of Nance, an elderly wanderer who understands the magic of the old ways. Set in a lost world bound by its own laws, THE GOOD PEOPLE is Hannah Kent's startling new novel about absolute belief and devoted love. Terrifying, thrilling and moving in equal measure, this follow-up to Burial Rites shows an author at the height of her powers. Should you take a much-needed vacation or save money for the kids' education? Protect the endangered owl or maintain jobs for loggers? Have a heart-to-heart with a lying employee or fire him on the spot? All of us face ethical choices. Sometimes they're easy. One side is wrong and the other is right. But how do we handle the really tough "right vs. right" dilemmas? Each side has strong moral arguments and we can't do both? This book helps us build Ethical Fitness—a values-based decision-making process so definitive that it's now a registered trade mark. Rushworth M. Kidder, founder of the Institute for Global Ethics, teaches us how to think for ourselves in order to resolve ethical dilemmas ranging from the intimate personal to the broadly philosophical. Unique in its approach and rich with illustrative anecdotes—updated with examples of real-world conflicts from today's political realm and from Dr. Kidder's own observations—How Good People Make Tough Choices is an indispensable resource for spotting, understanding, and resolving our toughest decisions. Working with the Shadow is not working with evil, per se. It is working toward the possibility of greater wholeness. We will never experience healing until we can come to love our unlovable places, for they, too, ask love of us. How is it that good people do bad things? Why is our personal story and our societal history so bloody, so repetitive, so injurious to self and others? How do we make sense of the discrepancies between who we think we are—or who we show to the outside world—versus our everyday behaviors? Why are otherwise ordinary people driven to additions and compulsions, whether alcohol, drugs, food, shopping, infidelity, or the Internet? Why are interpersonal relationships so often filled with strife? Explore Jung's concept of the Shadow—the unconscious parts of our self that contradict the image of the self we hope to project—Why Good People Do Bad Things guides you through all the ways in which many of our seemingly unexplainable behaviors are manifestations of the Shadow. In addition to its presence in our personal lives, Hollis looks at the larger picture of the Shadow at work in our culture—from organized religion to the suffering and injustice that abounds in our modern world. Accepting and examining the Shadow as part of one's self, Hollis suggests, is the first step toward wholeness. Revealing a new way of understanding our darker selves, Hollis offers wisdom to help you to acquire a more conscious conduct of life and bring a new level of awareness to your daily actions and choices.

"Finally, an engaging, evidence-based book about how to battle biases, champion diversity and inclusion, and advocate for those who lack power and privilege. Dolly Chugh makes a convincing case that being an ally isn't about being a good person—it's about constantly striving to be a better person." —Adam Grant, New York Times bestselling author of Give and Take Originals, and Option B with Sheryl Sandberg Forward by Laszlo Bock, the bestselling author of Work Rules! and former Senior Vice President of People Operations at Google An inspiring guide from Dolly Chugh, an award-winning social psychologist at the New York University Stern School of Business, on how to confront difficult issues including sexism, racism, inequality, and injustice so that you can make the world (and yourself) better. Many of us believe in equality, diversity, and inclusion. But how do we stand up for those values in our turbulent world? The Person You Mean to Be is the smart, "semi-bold" person's guide to fighting for what you believe in. Dolly reveals the surprising causes of inequality, grounded in the "good people" using her research findings in unconscious bias as well as work across psychology, sociology, economics, political science, and other disciplines, she offers practical tools to respectfully and effectively talk politics with family, to be a better colleague to people who don't look like you, and to avoid being a well-intentioned barrier to equality. Being the person we mean to be starts with a look at ourselves. She argues that the only way to be on the right side of history is to be a good-ish—rather than good—person. Good-ish people are always growing. Second, she helps you find your "ordinary privilege"—the part of your everyday identity you take for granted, such as race for a white person, an orientation for a straight person, gender for a man, or education for a college graduate. This part of your identity may bring blind spots, but it is your best tool for influencing change. Third, Dolly introduces the psychological reasons that make it hard for us to see the bias in and around us. She leads you from willful ignorance to willful awareness. Finally, she guides you on how, when, and whom, to engage (and not engage) in your workplaces, homes, and communities. Her science-based approach is a method any of us can put to use in all parts of our life. Whether you are a long-time activist or new to the fight, you can start from where you are. Through the compelling stories Dolly shares and the surprising science she reports, you'll discover how to be the person we mean to be.

How to Live a Longer, Healthier, Happier Life by the Simple Act of Giving
Helps every manager and professional understand and deal with a pervasive business reality most of us regard as inconceivable—until it happens. Explains the situations most apt to lead a manager down a collision course with superiors and shows why managers who get fired almost never recognize the danger they're in until it's too late. Sacked! shows how to anticipate trouble and take positive steps to solve the problem—whether it's a personality clash, conflicting strategies or ideals, or differing views of the manager's role. Gives managers 16 steps for taking control of their work and work relationships and a special chapter on creative solutions and alternatives to firing good talent.
Can a good person become a great one and, if so, how?After a five-year research project, Collins concludes that good to great can and does happen. In this book, he uncovers the underlying variables that enable any type of organization to

A world-renowned therapist, Mira Kirshenbaum has treated thousands of men and women caught in the powerful drama over what to do when an affair reaches into their emotional lives. Now, in When Good People Have Affairs, Kirshenbaum puts her unsurpassed experience into one clear, calming place. She gives readers everything they need to cut through the thickets of fear, hurt and confusion to find their ways to happier, more solid relationships with the person who's right for them. For example, Kirshenbaum identifies seventeen types of affairs, helping readers figure out which type they're in and what it means. Is it a "See-if" affair? "Ejector-seat affair"? "Distraction affair"? "Unmet needs affair"? "Panic affair"? Kirshenbaum encourages honest answers to such questions as --What am I missing in my marriage? --How do I decide between two people when it's like comparing an apple to an orange? --How do I decide to end my marriage, end my affair, or end them both? She leads readers through six easy-to-navigate steps that will take anyone from anxiety to clarity. When Good People Have Affairs will be a lifeline to any man or woman who feels caught between two lovers, and its insights are indispensable to anyone else touched by an affair.

We all have decided, driven by selfish desires, and incapable of doing what we know to be right in our own human strength. Premier Bible teacher Dr. Erwin Lutzer explains the hopeful reality that change is possible through the two sometimes painful process of God-given revelation and honest confession.

The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In The Big Sort, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about how we live today and then draws on history, economics, and our changing political landscape to create one

This book describes powerful, unseen forces that drive some Christians into sexual sins. It includes help and hope for believers who want to stand in the face of overwhelming sexual compulsions, and forgiveness and knowledge for those who have been hurt by fallen leaders. The #1 New York Times bestseller. Over 4 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving—every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: • make time for new habits (even when life gets crazy); • overcome a lack of motivation and willpower; • design your environment to make success easier; • get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits—whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo identifies seven types of "white fragility" and "allows us to understand racism as a practice not restricted to 'bad people'" (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Why Skills Trump Passion in the Quest for Work You Love
Peter Cappelli confronts the myth of the skills gap and provides an actionable path forward to put people back to work. Even in a time of perilously high unemployment, companies contend that they cannot find the employees they need. Pointing to a skills gap, employers argue applicants are simply not qualified; schools aren't preparing students for jobs; the government isn't letting in enough high-skill immigrants; and even when the match is right, prospective employees won't accept jobs at the wages offered. In this powerful and fast-reading book, Peter Cappelli, Wharton management professor and director of Wharton's Center for Human Resources, debunks the arguments and exposes the real reasons good people can't get hired. Drawing on jobs data, anecdotes from all sides of the employer-employee divide, and interviews with jobs professionals, he explores the paradoxical forces bearing down on the American workplace and lays out solutions that can help us break through what has become a crippling employer-employee stand-off. Among the questions he confronts: Is there really a skills gap? To what extent is the hiring process being held hostage by automated software that can crunch thousands of applications an hour? What kind of training could best bridge the gap between employer expectations and applicant realities, and who should foot the bill for it? Are schools really at fault? Named one of HR Magazine's Top 20 Most Influential Thinkers of 2011, Cappelli not only changes the way we think about hiring but points the way forward to rev America's job engine again.
"Engaging, well-researched and frequently hilarious, From Shy To Social is one of those rare self-help books that feels like you're being coached and encouraged by a trusted friend. An absolute must-read for all of the love shy men out there." — Sofi Pappamarko, Relationship Columnist & Contributor to The Huffington Post and The Globe & Mail Keywords: Dating success, relationship advice, pickup artist women dating sex, confidence building presentation, assertiveness training public speaking, improving social skills conversation
In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a little taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life. Women desire to live well. However, living well in this modern world is a challenge. The pace of life, along with the new frontiers of social media, has changed the landscape of our lives. Women have been told for far too long that being on the cut and accumulating more things will make their lives full. As a result, we grasp for the wrong things in life and come up empty. God created us to walk with him; to know him and to be loved by him. He is our living well and when we drink from the water he continually provides, it will change us. Our marriages, our parenting, and our homemaking will be transformed. Mommy-blogger Courtney Joseph is a cheerful realist. She tackles the challenge of holding onto vintage values in a modern world, starting with the keys to protecting our walk with God. No subject is off-limits as she moves on to marriage, parenting, and household management. Rooted in the Bible, her practical approach includes tons of tips that are perfect for busy moms, including: Simple Solutions for Studying God's Word How to Handle Marriage, Parenting, and Homemaking in a Digital Age 10 Steps to Completing What God Has Begun Healing With Disappointed Expectations in Motherhood Creating Routines that Bring Rest Pursuing the Discipline and Diligence of the Proverbs 31 Woman There is nothing more important than fostering your faith, building your marriage, training your children, and creating a haven for your family. Women Living Well is a clear and personal guide to making the most of these precious responsibilities.

Many people believe that just being a good person will get them into heaven after they die. But, the Bible is very clear about who will go to Heaven and who will go into Hell for eternity after death. Matthew 7:13
"What does everyone in the modern world need to know? [The author's] answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. [The author discusses] discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life"--
"Based on the viral Harvard Business Review article, bestselling author Anthony Tjian argues that leaders have a new imperative: you must have competent people on your team—but more importantly, they must also be of high character. As a leader you need to help develop and mentor for character further. Until now, we have only had ways of assessing competency in business, but we must also have the tools to help us judge, develop, and lead good people. Author of the bestsellingHearts, Smarts, Guts and Luckand venture capitalist Anthony Tjian offers insight into and a methodology for developing character, first in yourself and in those around you. Good people are your organization's most important competitive advantage. We all know that finding good people is difficult, as being good on paper doesn't always translate to being good in practice. While competence is necessary, Tjian argues that "goodness" is just as crucial as what's on a resume--and that a fantastic resume can never compensate for mediocre character. Yet most people who are in the business of finding and developing good people still focus on the "what" more than the "who" of the individuals surrounding them. Tjian writes that character is a lifelong proactive commitment that, like any skill, can be exercised, honed, and developed. Only when leaders learn to develop these qualities in themselves and others will great and lasting change take place throughout an organization. Good Peopleestablishes a new understanding of goodness--a word we use frequently in business without always understanding what we mean. Tjian also profiles "good people" who are extraordinary leaders and motivators in their fields, providing insights from Tony Hsieh of Zappos, Beth Comstock of GE, Dominic Barton of McKinsey, author Deepak Chopra, M.D., Dean Nitin Nohria of Harvard Business School, Army General (ret.) Stanley McChrystal, jazz pianist Herbie Hancock, and a range of everyday unsung heroes. Packed with practical, often surprising advice, Good Peopleshowsthat the most transformative changes in business and life come down to the people we choose, and who choose us, and the values of goodness we have in common"--

The COVID-19 pandemic forced an unprecedented experiment that reshaped white-collar work and turned remote work into a kind of "new normal." Now comes the hard part. Many employees want to continue that normal and keep working remotely, and most at least want the ability to work occasionally from home. But for employers, the benefits of employees working from home or hybrid approaches are not so obvious. What should both groups do? In a prescient new book, The Future of the Office: Work From Home, Remote Work, and the Hard Choices We All Face, Wharton professor Peter Cappelli lays out the facts in an effort to provide both employees and employers with a vision of their futures. Cappelli unveils the surprising tradeoffs both may have to accept to get what they want. Cappelli illustrates the challenges we face by in drawing lessons from the pandemic and deciding what to do moving forward. Do we allow some workers to be permanently remote? Do we let others choose when to work from home? Do we get rid of their offices? What else has to change, depending on the approach we choose? His research reveals there is no consensus among business leaders. Even the most high-profile and forward-thinking companies are taking divergent approaches: --Facebook, Twitter, and other tech companies say many employees can work remotely on a permanent basis. --Goldman Sachs, JP Morgan, and others say it is important for everyone to come back to the office. --Ford is reding its office space so that most employees can work from home at least part of the time, and --GM is planning to let local managers work out arrangements on an ad-hoc basis. As Cappelli examines, earlier research on other types of remote work, including telecommuting offers significant guidance as to what to expect when some people will be in the office and others work at home, and also what happened when employers tried to take back offices. Neither worked as expected. In a call to action for both employers and employees, Cappelli explores how we should think about the choices going forward as well as who wins and who loses. As he implores, we have to choose soon.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations--featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace advice columnist has taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does--and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you--then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged--or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."--BookList (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."--Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces--and to do so with grace, confidence, and a sense of humor."--Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."--Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

How AN ENY-NOMIATED HULLU ORIGINAL SERIES • NEW YORK TIMES BESTSELLER • "A stunning novel about the transformative power of relationships" (People) from the author of Conversations with Friends, "a master of the literary page-turner" (J. Courtney Sullivan). ONE OF THE TEN BEST NOVELS OF THE DECADE--Entertainment Weekly TEN BEST BOOKS OF THE YEAR--People, State, The New York Public Library, Harvard Crimson AND BEST BOOKS OF THE YEAR--The New York Times, The New York Times Book Review, O: The Oprah Magazine, Time, NPR, The Washington Post, Vogue, Glamour, Elle, Marie Claire, Vox, The Paris Review, Good Housekeeping, Town & Country Connell and Marianne grew up in the same small town, but the similarities end there. At school, Connell is popular and well liked, while Marianne is a loner. But when the two strike up a conversation--awkward but electrifying--something life changing begins. A year later, they're both studying at Trinity College in Dublin. Marianne has found her feet in a new social world while Connell hangs at the sidelines, shy and uncertain. Throughout their years at university, Marianne and Connell circle one another, straying toward other people and possibilities but always magnetically, irresistibly drawing back together. And as she veers into self-destruction and he begins to search for meaning elsewhere, each must confront how far they are willing to go to save the other. Normal People is the story of mutual fascination, friendship and love. It takes us from that first conversation to the years beyond, in the company of two people who try to stay apart but find that they can't. Praise for Normal People "[A] novel that demands to be read compulsively, in one sitting."--The Washington Post "Arguably the buzziest novel of the season, Sally Rooney's elegant sophomore effort . . . is a worthy successor to Conversations with Friends."

How to Hire Better
Introduction: the company you keep -- You are just like Coca-Cola: selling your self through personal branding -- Being generic--and not--in the right way -- Getting off the screen and into networks -- Didn't we meet on LinkedIn? -- Changing the technological infrastructure of hiring -- The decision makers: what it means to be a hiring manager, recruiter, or HR person -- When moving on is the new normal -- Conclusion: we wanted a labor force but human beings came instead
The Pleasures of Suffering and the Search for Meaning
Challenging States' Ability to Regulate Human Behavior
Why Do Good People Suffer Bad Things
Understanding Our Darker Selves
Why Good Things Happen to Good People
Down and Out in the New Economy
12 Rules for Life

You are not alone if you struggle to understand why unwanted, unexplainable, and inconceivable bad things happen to innocent people! Never before have there been so many questions like: How could a loving God permit good people to suffer bad things and often make it appear as though the guilty are rewarded or go scot free? Why are there so many things in the world that seem unfair or unjust? Why does God seemingly hide his face from much of the horrific evil, pain and destruction? Does God really care? Is it fair for humans to be angry with God about their misfortune or suffering? Why are there so many good people accused falsely for their suffering? What defence mechanisms can I put in place to minimize evil, suffering, pain, misfortune, and the devil's influence in my own life? What purpose does suffering, and pain serve in human life? These are some of the most thought-provoking, spiritually intuitive, deeply agitating, and most frequent questions asked by countless individuals, especially by those who believe that there is a God.
