Brynhild is the paramount figure of Germanic legend, but she has been subordinated more often than not to the male object of her passion. Her story is thus normally referred to as the legend of Sigurd or, in German circles, the legend of Siegfried. The title of this book is intended to make the point that the legend sings principally of the woman, not the man, a view that I argue specifically at the beginning of Chapter 2. My task has been to examine the sometimes fragmentary and always refractory medieval accounts of Brynhild with a view to extracting from them a better appreciation of her personality. This task made it necessary to reopen the long-standing debate on the textual relationships of the major literary documents (Poetic Edda, Volsunga saga, Pioreks saga, and Nibelungenlied). As a consequence the book has become a general reassessment of the so-called Nibelung question, a good part of which it attempts to summarize and elucidate.

This incredible autobiography of Christiane F. provides a vivid portrait of teen

friendship, drug abuse, and alienation in and around Berlin's notorious Zoo Station. Christiane's rapid descent into heroin abuse and prostitution is shocking, but the boredom, longing for acceptance, thrilling risks, and even her musical obsessions are familiar to everyone. Previously published in Germany and the US to critical acclaim, Zest's new translation includes original photographs of Christiane and her friends. This book contains Edgar Allen Poe ' s 1838 short story, " Ligeia " . An anonymous narrator recounts the story of his meeting a beautiful and intellectual woman "in some large, old decaying city near the Rhine." They get married, and Ligeia introduces her husband to all manner of mathematical and metaphysical knowledge. Soon after, she becomes seriously ill and dies. The narrator ' s second marriage comes to a similarly tragic end, resulting in the uncanny reappearance of the mysterious Ligeia. A gripping and atmospheric tale, " Ligeia " is highly recommended for fans of fantasy and horror fiction, and would make for a fantastic addition to any collection. Edgar Allan Poe (1809–1849) was an American author, editor, poet, and critic. Most famous for his stories of mystery and horror, he was one of the first American short story writers, and is widely considered to be the inventor of the detective fiction genre. Many antiquarian books such as this are becoming increasingly rare and expensive. We are republishing "Ligeia " now in an affordable, high-quality edition complete with a specially commissioned new biography of the author.

Life Goes to the Movies

Michael Frayn's 'gorgeous farce' about a university reunion premiered thirty years ago at the Globe Theatre, London. Returning to the West End in a sparkling new production, it remains a classic comedy. Twenty years after graduation, six former students return to their university college for a reunion dinner. Whilst their lives may have had varying degrees of success, all are connected by a common past. Once locked in college for the night, the graduates begin to relive their youth, and old friendships, feuds - and the much-desired but absurdly proper Master's wife - come tumbling back into the present . . . 'The show reaches

that plateau of comic bliss when it becomes physically impossible to stop laughing' Daily Telegraph 'The West End's summer gets off to an exhilarating start with the hilarious return of Michael Frayn's comedy Donkeys' Years' Sunday Express 'All the confidence of a serious comic masterpiece. Masterclass performances. This is one of the best revivals in the West End for years. Unmissable!' Sunday Times

Uses the medium of fiction to bring fresh insights into the love and struggles shared by Mary and Joseph.

'All in the Family' quickly did more than become a top-rated, Emmy Award-winning series that promoted a positive, progressive agenda. This revolutionary show about a reactionary man helped foster an openness in culture. It transformed the very nature of what could be broadcast into our homes, and paved the way for other shows with working-class as well as racially diverse protagonists. During 'All in the Family's nine seasons on CBS, creators Norman Lear and Bud Yorkin used their series as a televised soapbox to masterfully portray the upheavals and concerns racking the United States. Half a century later, its humor and message remain prescient, as it plumbs problems that still vex our families and society, and seeks to understand and explain the very soul of America.

Reproductions of the classic Sherlock Holmes stage plays, The Speckled Band and Sherlock Holmes, written by Sir Arthur Conan Doyle and William Gillette. These plays offer a fascinating insight into an early and often forgotten chapter of the Sherlock Holmes legacy.

Working from the Poetic Edda, the Prose Edda, and Old Norse prose narratives and laws, Jenny Jochens argues for an underlying cultural continuum of a pagan pantheon and a set of heroic figures shared by the Germanic tribes in Europe, Britain, Scandinavia, and Iceland from A.D. 500 to 1500. Old Norse Images of Women explores the female half of this legacy, which involves images both divine and human. In a society marked by sharp gender divisions, women were frequently portrayed as one of four conventional types. The warrior woman was exemplified by the valkyrie, sheildmaiden, or maiden king. The wise woman was a prophetess or sorceress. The avenger is best seen in Gudrun, whose focus of revenge shifted from husband to brothers. Last, there were the whetters or inciters, who appear both in the Continental setting as Brynhildr and as ubiquitous figures in medieval Icelandic literature, ranging from Norwegian queens to humble milkmaids.

This is the first new book-length study of British cinema of the 1910s to be published for over fifty years, and it focuses on the close relationship between the British film industry and the Edwardian theatre. Why were so many West End legends such as Sir Herbert Beerbohm Tree and Ellen Terry repeatedly tempted to dabble in silent film work? Why were film producers so keen to employ them? Jon Burrows studies their screen performances and considers how successfully they made the transition from one medium to the other, and offers some controversial conclusions about the surprisingly broad social range of filmgoers to whom their films appealed. Jon Burrows is a lecturer in the Department of Film and Television Studies, University of Warwick. He is the author of numerous

articles about silent British cinema, including contributions to *British Stars and Stardom* (Manchester, 2001), *The British Cinema Book*, 2nd edition (London, 2001), *Young and Innocent? The Cinema in Britain, 1896-1930* (University of Exeter Press, 2002).
