Not illustrated. 1911 edition. Excerpt: ...a vinculo from his wife, Mary E. Ward, on the sole ground of willful desertion for two years. Wilful desertion, in the statutory intent and meaning, is the voluntary separation of one of the married parties from the other, or the voluntary refusal to renew a suspended marital relation, without justification either in the consent or wrongful conduct of the other. The onus is on the plaintiff satisfactorily to prove all the constituent elements of the alleged wilful desertion. If he fails to do this, and especially if the evidence discloses that his wife's separation from him was either by his compulsion, and therefore not voluntary, or with his consent, then the divorce cannot be granted. The wife's separation by the husband's compulsion may be caused either by actual physical force against her, or by threats and conduct on his part suficient to afford her reasonable ground for believing or fearing that the security of her life or person is seriously endangered, unless she seeks safety by leaving him. The husband's consent to his wife's departure and continued separation from him may be either express or implied, and may be proven either by his direct declaration or admission thereof, OPINION. or by such conduct and other circumstances as plainly and reasonably import such consent. 9 Am. 6' Eng. Ency. Law, p. 778, note 1, citations. The testimony in this suit is very contradictory, and not so satisfactory as could be wished; but amid the conflict of evidence certain controlling facts are sufficiently established to enable this Court to reach what it deems a just and proper conclusion. The petitioner's own testimony clearly indicates that for some time prior to his wife's leaving him, on September 26, 1906, the harmony of their...

What does consent mean? Where does this idea come from, and why is it being talked about in a different way now than it was 20 years ago? More importantly, what does it have to do with any of us? How do we make sure other people know what is and isn't okay with us? How do we navigate life in the post-#MeToo era with dignity, respect, and confidence? Dr. Faith tackles all these questions and more, drawing on her extensive experience to demystify the concept of consent and to help us use it to have awesome lives.

Frequently in the Old Testament f the Bible, the relationship between God and his people is described in terms of the marriage relationship. God is the bridegroom, tender and loving towards his bride, his people. When his people leave him, seeking other and more convenient gods, Scripture calls their rupture of that relationship adultery. God expresses all the pain and rejection in this situation in terms that a husband would call his wife back to him, so God calls back his unfaithful people. The New Testament sustains this analogy. Christ uses the same imagery, an imagery which is rich with the everyday experience of his listeners. The concept behind the imagery, an imagery which is rich with the everyday experience of his listeners. The concept behind the imagery is that of love, fidelity, and unity, Just as in marriage the two become one flesh forsaking all others, an intimacy that is the closest known to man, so God offers and seeks that faithful love and unity in his relationship with his people. The imagery works both ways; seeing what marriage is, we come to know more clearly the nature of our relationship to God. Knowing-God and his love for us, we come closer to understanding the relationship of marriage.

#1 New York Times bestseller and Pulitzer Prize winner. A seminal work of political fiction-as relevant today as when it was first published. A sweeping tale of corruption and ambition cuts across the landscape of Washington, DC, with the breadth and realism that only an astute observer and insider can convey.

There are many people and many authors who believe that civilization, mankind or our species has amnesia. I do not believe this. I believe we have been lied to since the beginning of recorded history and even before that. The first half of this book is about our four previous civilizations, and the ‘ out of place artifacts ’ and knowledge that has been hidden, debunked, lost or forgotten, such as the giant skeletons recorded in most newspapers in the 19th century, recorded Indian Vimanas that flew powered by a spinning plasma engines in 7,000 BCE, as well as flying ‘ Aeros ’ in Bavaria and the Western United States. It is about the Cro-Magnon giants of the Atlantean civilization escaping to the area of the Caucasus Mountains, Northern Africa, the Canary Islands and the East Coast of the Americas during the Solar System cataclysm in 10,900 BCE. It is about that same tall Atlantean Aryan (Iranian) race with blue eyes and red and blonde hair that migrated from the Caucasus mountains and became the ruling class from China to Egypt. It is also the story of the stealing, destroying, hiding and perverting the occult and lost knowledge of the ‘ Brotherhood ’ by the High-priests of Egypt, known as the Scarlet Council, so that only they could control who could become part of their ‘ New Brotherhood ’. That ancient knowledge was also perverted by the addition of the Jewish Kabbalah, a mixture of alchemy, numerology, gematria and magic, as well as, by the Alumbrados, an emerging occult movement founded by Spanish Marranos. The members were baptized Jews who secretly kept their Talmudic faith. Also, the Khazars, Krypto Jews from near the Black Sea, with their knowledge of Babylonian black magic and money magic perverted the Mysteries. This confusing jumble was added to the existing Egyptian Osiris-Isis-Horus Cult, which was the basis of Freemasonry, which was infiltrated by Adam Weishaupt and his 2000 members, along with the Jesuits and the Vatican. This became the ‘ New Illuminati ’. Finally, it is about the control of the masses by religion and by the alchemy of social engineering to manipulate the masses through disinformation, brainwashing, and the fear of terror. It uses mass death rituals like 9/11 and public assassination rituals such as that of JFK for shock value. The use of this alchemical social engineering is used in the engineering of consent in order to ‘ protect ’ the masses from the terror and hopelessness, that the ‘ Brotherhood ’, itself, has created. This culture of control can also be seen by the use of political correctness, the additional attempts to limit free speech and the creation of hopelessness, mistrust and eugenics by lockdowns, masks, quarantines, and forced use of untested injections. Remember the Nuremberg Code and Never Again? That was a lie, as well. We are living it that lie.

This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women ’ s rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

The War on Informed Consent

The world has entered the new Millennium, and in the United States there are two forces on a collision course. The first is a political party with a grand plan to gain complete control of the country. The second force is New America, Inc, a secretive organization that sees the country headed toward a moral and financial crash, and seeks to accelerate that process while the American people are strong enough to recover. Caught between these two forces is George Grayhorse, Junior Congressman from Arizona. Appointed to fill out his father’s term when his father is murdered, George is wooed by party leaders with offers of power and prestige. He is also recruited by New America, Inc to help them with their plan to give the country a fresh start. George rejects both offers to focus on continuing his father’s work and finding his father’s killer. When his search makes him a target of his father’s killers, George takes refuge with New America, Inc. As the collision occurs, the American people erupt in outrage and George is forced to choose between saving the US congress from an angry mob and stepping aside and allowing the mob to take their revenge.

With his consent, she is even permitted to dispose of her property gratuitously. Ibid., 1467. But, it will be said, that when she alienates her property for the benefit of, or in relation to obligations contracted by her husband, she becomes incapable, under article 2412. How does she become incapable'? Are not married women capable of contracting, unless specially declared incapable by law, and are there no means of removing the incapacity of the wife'? Ibid., articles 1775, 1779, 1784. This last article shows the incapacity of the wife only in relation to her becoming security for her husband. Well, in this case, do we consider her as security; did she become in any way obligated to the defendant'? Do we seek to enforce any contract of suretyship'? What is the definition of suretyship'? Ibid., article 3004. Can it be said that she is without this definition'? No; the only obligation that we seek to enforce against her is an obligation not to do, and not an obligation to pay us any thing, either for herself or for another. The stipulation contained in the act of mortgage is nothing but an alienation of her paraphernal rights, so 'far as they may be conflicting with the rights of the defendant; it is a simple renunciation to her priority ofmortgage, and this is certainly warranted by law. The ancient laws of the land, under which the case of Treme vs. Lanaux, 4 Martin, N. S. 230, was decided, were as severe as the new ones in relation to engagements of married women for their husbands, (2 Martin, N. To preserve public vaccine policy, Dr. Paul Thomas was disbarred and discredited—discover how he was punished for pursuing the truth for his patients. On December 3, 2020, the Oregon Medical Board issued an emergency order to suspend the license of renowned physician Paul Thomas, MD. The ostensible reason was that Dr. Thomas posed a threat to public health by failing to vaccinate his pediatric patients according to the CDC’s schedule. However, the order came just days after Thomas published a peer-reviewed study indicating that his unvaccinated patients were the healthiest children in his practice. The medical board ignored this data despite having requested Thomas to produce peer-reviewed evidence to support his alternative approach. “Dr. Paul” started out practicing medicine the way he was trained to, which meant vaccinating according to the CDC’s routine childhood vaccine schedule. But then he went on a journey of awakening, becoming what he calls “vaccine risk aware,” and arrived at a place where no longer in good conscience could he continue “business as usual” with this one-size-fits-all approach. He left a private group practice to open his own clinic with the foundational principles of individualized care and respect for the right to informed consent. He wrote the Vaccine-Friendly Plan with Jennifer Margulis, PhD, to help parents navigate the decision-making process. Then the accusations from the medical board started coming. The War on Informed Consent exposes how the medical board suspended Dr. Thomas’s license on false pretexts, illuminating how the true reason for the order was that, by practicing informed consent, he posed a threat to public vaccine policy, which is itself the true threat to public health.

The Capital lies in ruins. At its highest levels, government has been hobbled, leaving no one at the federal level to fight on behalf of the American people. Dr. Huggins and Dr. Levy assert that a large number of disorders are, though often incurable, easily preventable. He proposes that multiple sclerosis, lupus, leukemia, chronic fatigue syndrome, Parkinson's disease, many mental disorders including Alzheimer's, and even major diseases like breast cancer are caused, in part, by the toxins we place in our bodies. Where do these toxins come from and how do they get into our bodies? You my be surprised to find that you have actually paid to have them put there. These dangerous materials--mercury, cadmium, beryllium, nickel, and others--are used in everyday dentistry to make up the fillings, root canals, and bridgework in our mouths, and are supposed to be "safe." But are they? Uninformed Consent presents cases of toxic poisoning--of depressed immune systems and inexplicable illnesses--to toxins entering the bloodstream from the heavy metals in dental materials. The authors also discuss the hidden truths that the dental industry in America doesn't want to talk about, and the real reasons the dangers of these materials have been suppressed and ignored. Dr.'s Huggins and Levy implore the reader: "Don't leave your health in your dentist's hands and assume that all will be fine. Become informed and take an active role in your health. Know what will be implanted in your mouth. You must decide at the outset what is more important to you--the life of a filling or your life." Uninformed Consent will give you the facts so that you may take responsibility for your dental--and complete--health and wellness.

Excerpt from Copyright, Its Law and Its Literature: Being a Summary of the Principles and Law of Copyright, With Especial Reference to Books Property right in unpublished works has never been effectively questioned - a fact which in itself confirms the view that intellectual property is a natural inherent right. The author has preme control over an unpublished work, and his manuscript cannot be utilized by creditors as assets without his consent. If he lends a copy to another, says Baron Parks, his right is not gone; if he sends it to another under an im plied undertaking that he is not to part with it or publish it he has a right to enforce that undertaking. The receiver of a letter, to whom the paper containing the writing has un doubtedly been given, has no right to publish or otherwise use 'the letter without the writer's consent. The theory that by permitting copies to be made, an author dedicates his writing to the public, as an owner of land dedicates a road to the public by permitting public use of it for twenty-one years, overlooks the fact that in so doing the author only conveys to each holder of his book the right to individual use, and not the right to multiply copies, as though the landowner should not give but sell permission to individuals to pass over his road, without any permission to them to sell tickets for the same privilege to other people.
