

Wongs Nursing Care Of Infants And Children 2006 440

This money saving package includes the Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience: access to patient data with a shift report and fully-functional electronic medical record (EMR): post-simulation exercises including charting and documentation in the EMR, reflection journaling, and concept mapping and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. The most trusted authority in pediatric nursing, Wong's Nursing Care of Infants and Children provides unmatched, comprehensive coverage of pediatric growth, development, and conditions. Its unique 'age and stage' approach covers child development and health promotion as well as specific health problems organized by age groups and body systems. Leading pediatric experts Dr. Marilyn Hockenberry and David Wilson provide an evidence-based, clinical perspective based on nearly 30 years of hands-on experience. Easy to read and extensively illustrated, this edition focuses on patient-centered outcomes and includes updates on topics such as the late preterm infant, immunizations, the H1N1 virus, and childhood obesity. A clear, straightforward writing style makes content easy to understand. Unique Evidence-Based Practice boxes help you apply both research and critical thought processes to support and guide the outcomes of nursing care. Unique Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Unique Critical Thinking exercises help you test and develop your own analytical skills. A focus on family content emphasizes the role and influence of the family in health and illness with a separate chapter, discussions throughout the text, and family-centered care boxes. Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Unique Emergency Treatment boxes serve as a quick reference for critical situations. Unique Cultural Awareness boxes highlight ways in which variations in beliefs and practices affect nursing care for children. A developmental approach identifies each stage of a child's growth. Health promotion chapters emphasize principles of wellness and injury prevention for each age group. Student-friendly features include chapter outlines, learning objectives, key points, references, and related topics and electronic resources to help you study and review important content. A community focus helps you care for children outside the clinical setting. Nursing Care Plans include models for planning patient care, with nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. Nursing Tips include helpful hints and practical, clinical information, and Nursing Alerts provide critical information that must be considered in providing care.

Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, you can personalize the text to match your unique study needs! Known for its accuracy, evidence-based focus, and engaging writing style, Wong's Essentials of Pediatric Nursing, 10th Edition has been the #1 title in the pediatric nursing market since it first published in 1980! Thoroughly revised to equip you with the latest research and guidelines for treating children today, it encourages a whole-body approach by beginning with child development and health promotion to better understand the later chapters on specific health problems. A new chapter featuring all systems cancers provides comprehensive information in one place. Nursing Care Plans now incorporate additional case studies to personalize interventions and promote critical thinking. A developmental approach clearly identifies key tasks, influences, and differences at each stage of a child's growth to help students provide appropriate, individualized care for each child. UNIQUE! Critical thinking case studies?allow you to test and develop your analytical skills in a variety of clinical situations. UNIQUE!Quality Patient Outcomes?content?Nursing Care Management?discussions for major diseases and disorders helps you understand how the care you provide directly impacts patient safety and promotes positive outcomes. Updated genetic content in the Developmental and Genetic Influences on Children chapter addresses rapidly changing and important information as it relates to children in health and illness. UNIQUE! Family focus?Includes a separate chapter on the role of the family in child health, family content throughout the text, and Family-Centered Care boxes that highlight information on patient teaching, home care, and incorporating the family in the child's care. UNIQUE! Translating Evidence into Practice boxes focus your attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. UNIQUE!Atraumatic Care?boxes guide you through performing procedures in a caring manner, promoting more positive experiences for children, families, and nurses. Drug Alerts?throughout the text emphasize important drug information and point out potential safety issues. An emphasis on wellness?offers health promotion and injury prevention strategies for each age group. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Nursing Care Plans, including Nursing Diagnoses, Patient/Family Goals, Nursing Interventions/Rationales, and Expected Outcomes, provide you with a model for planning patient care. Research Focus boxes help you remain abreast of current studies that impact pediatric nursing today. Cultural content, integrated throughout the text and highlighted in Cultural Considerations boxes, exposes you to customs and beliefs of different cultures that influence child care, enhancing your ability to provide quality nursing care to ALL children and their families. Nursing Tips throughout the text offer helpful hints and practical, clinical information of a non-emergency nature. Nursing Alerts throughout the text provide you with critical information that must be considered in providing care. UNIQUE! Emergency Treatment boxes serve as a quick reference in critical situations. Nursing Care Guidelines boxes provide you with clear, step-by-step, detailed instructions for performing specific skills or procedures. NEW! Updated content throughout, notably methods of measuring competency and outcomes (OSEN and others), ambiguous genitalia, pediatric measurements, guidelines, and standards as defined by the American Academy of Pediatrics, and clear definitions of adolescent and young adult, keeps you up-to-date on important topic areas. NEW! The Child with Cancer chapter includes all systems cancers for ease of access. NEW! UPDATED! Case Studies now linked to Nursing Care Plans to personalize interventions, while also providing questions to promote critical thinking.

Essentials of Pediatric Nursing

This money-saving package includes the 9th edition of Hockenberry: Wong's Nursing Care of Infants and Children Textbook and Study Guide. The leading text in pediatric nursing, Wong's Nursing Care of Infants and Children takes a unique, easy-to-understand developmental approach to describe the care of children at each age and stage of development. Childhood diseases and disorders are organized by age groups and body systems, and described through the nursing process framework. This edition includes updates on topics such as the new CPR guidelines, immunizations, and pain assessment and management. Written by pediatric experts, Dr. Marilyn Hockenberry and David Wilson, each with nearly 30 years of hands-on experience, this bestseller provides an evidence-based, clinical perspective that shows how the quality of nursing care can impact quality patient outcomes. "A good neonatal and paediatric reference and textbook..." Reviewed by Jo Wilson on behalf of Nursing Times, March 2015 A developmental approach addresses the differences at each stage of the child's growth and enables you to individualize care at the appropriate level for each child. UNIQUE! Quality Patient Outcomes are discussed for major childhood diseases and disorders, showing how nursing care directly impacts patient outcomes. Nursing Care Plans provide models for planning patient care, with rationales explaining why specific nursing interventions have been chosen, and include nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. A focus on family-centered care emphasizes the role and influence of the family in health and illness with a separate chapter and Family-Centered Care boxes. Critical thinking exercises use case studies to help you test and develop your own analytical skills. Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Nursing Tips include helpful hints and practical, clinical information, and Nursing Alerts provide critical information that must be considered in providing care. An emphasis on wellness includes principles of health promotion and injury prevention for each age group. Drug Alerts highlight important drug-related information for safe, appropriate care. Pathophysiology Reviews explain complicated disease processes with illustrated summary boxes. Complementary & Alternative Therapy boxes include timely information on alternative medicine as a part of complete, comprehensive care. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress, and provide guidance for performing procedures in a caring manner. Emergency Treatment boxes serve as a quick reference in critical situations.

Corresponding chapter by chapter to the completely reorganized and revised Wong's Nursing Care of Infants and Children, 11th Edition, this study guide helps you apply pediatric nursing concepts to real-world practice. It assesses, reinforces, and strengthens your understanding of pediatric nursing with learning activities, review questions, and case studies with critical thinking questions. Learning Key Terms — consisting of matching and fill-in-the-blank questions — test your ability to define all key terms highlighted in each textbook chapter. An answer key for the review questions and learning activities is included in the back of the study guide. Pages are perforated, so submitting assignments is easy. Reviewing Key Concepts and Content includes questions in various formats to provide you ample opportunity to assess your knowledge and comprehension of information covered in the text. Activities include matching, fill-in-the-blank, true/false, short answer, and multiple choice to help you identify the core content of the chapter — and test your understanding upon completion of reading the chapter. Thinking Critically case-based activities require you to apply the concepts found in the chapters to solve problems, make decisions concerning care management, and provide responses to patient questions and concerns. Learning Key Terms consists of matching and fill-in-the-blank questions that let you test your ability to define all key terms highlighted in the corresponding textbook chapter. An answer key is included at the end of the Study Guide. Perforated pages allow you to submit assignments to your instructor. NEW! Updated chapter organization and content matches revised and reorganized text.

An answer key is included in the back of the study guide. Perforated pages allow you to submit assignments to your instructor. Key terms are accompanied by definitions and help you learn important terminology. For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents - in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery-such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Lippincott CoursePoint is the only integrated digital curriculum solution for nursing education. CoursePoint provides a completely integrated and adaptive experience, all geared to help students understand, retain, and apply their course knowledge and be prepared for practice. CoursePoint is structured in the way that students study, providing them the content exactly where and when they need it for a more effective learning experience. The powerful integration of adaptive learning, powered by prepU, with the premium digital course content provides a personalized learning experience that drives students to immediate remediation in their course content and allowing instructors and students assess their progress in real-time. The digital textbook is downloadable, so students will have perpetual access to this content. "

This is a Pageburst digital textbook; Engaging and easy to read, this concise textbook offers just the right level of maternity and pediatric nursing coverage. It provides a solid foundation in normal body function, then builds on that knowledge to help you understand how to modify nursing care when the unexpected arises. Clear writing and interactive learning tools (including video and animation) reinforce key concepts and encourage you to think critically and apply what you've learned. Critical to Remember boxes highlight "need to know" information for quick and easy access. Critical Thinking Exercises challenge you to apply critical thinking and problem-solving skills to realistic clinical scenarios. Illustrated Procedure boxes provide clear, step-by-step instructions for performing key clinical nursing tasks. Nursing Care Plans in every clinical chapter help you learn to use the nursing process to develop individualized care for maternity and pediatric patients. Communications Cues provide practical verbal and nonverbal tips for communicating effectively with patients and families. Want to Know boxes offer helpful patient teaching guidelines. Photo Stories use engaging pictures to demonstrate the types of care nurses provide in a variety of clinical settings. Pathophysiology boxes in pediatric chapters provide illustrated overviews of common disorders. Companion CD-ROM contains video clips, 3-D animations, illustrated skills, case studies with critical thinking questions, NCLEX® examination-style review questions, and an audio glossary complete with Spanish pronunciations. Evolve Student Resources Website offers up-to-date web links, video clips, resources for health care providers, review questions, and a variety of interactive exercises.

Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

The leading text in pediatric nursing, Wong's Nursing Care of Infants and Children takes a unique, easy-to-understand developmental approach to describe the care of children at each age and stage of development. Childhood diseases and disorders are organized by age groups and body systems, and described through the nursing process framework. This edition includes updates on topics such as the new CPR guidelines, immunizations, and pain assessment and management. Written by pediatric experts, Dr. Marilyn Hockenberry and David Wilson, each with nearly 30 years of hands-on experience, this bestseller provides an evidence-based, clinical perspective that shows how the quality of nursing care can impact quality patient outcomes.

Whaley & Wong's Nursing Care of Infants and Children

Portable and convenient, Wong's Clinical Manual of Pediatric Nursing, 8th Edition is your "go-to" clinical guide for the care of children and their families, whether in the hospital, clinic, community setting, or home. It includes assessment tools that may be used in practice, nursing care plans for specific disorders, and new information on pediatric pain assessment and management. Evidence-based guidelines are updated and also include patient teaching instructions, so you'll find all information on a specific procedure in one location. Written by leading pediatric experts, David Wilson and Marilyn Hockenberry, this companion Evolve website with nursing care plans that may be customized and printed for use with individual patients. Complete, concise assessment data on general health, specific problems, nutrition, sleep, and growth and development is easy to access in the clinical setting. UNIQUE! Evidence-based interventions are guidelines for treating pediatric patients and providing information to their families and caregivers, with new interventions added on phototherapy and asthma inhalers. UNIQUE! Safety Alerts highlight safety information throughout the book. UNIQUE! Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, and stress. Nursing Care Plans include guidelines and examples for developing care plans for patients, and a companion Evolve website allows you to modify, customize, and print these care plans. UNIQUE! A community focus includes guidelines to interventions, patient teaching, and home care, along with Community Focus boxes throughout book. Tables and charts for health promotion summarize nutrition, immunizations, safety and injury prevention, and parental guidance. Common laboratory test data is provided at your fingertips. UNIQUE! Modifiable Nursing Care Plans for 24 pediatric conditions are included in the care plan constructor on the companion Evolve website. UNIQUE! Patient teaching instructions on Evolve allow you to print and disseminate sets of easy-to-understand instructions to caregivers, with 15 translated into Spanish. NEW Pain Assessment and Management unit presents pain management strategies for the neonate, child, and adolescent. NEW! Full-color photos of dermatologic conditions help you diagnose the pediatric dermatologic problems most commonly seen in practice.

As the #1 title in the pediatric nursing market for over 40 years, Wong's Essentials of Pediatric Nursing, 11th Edition continues to leverage its trademark developmental approach as it equips readers with the very latest research and guidelines for treating children today. The text utilizes a highly-readable writing style and encourages a whole-body approach — beginning with child development and health promotion to better understand the later chapters on specific health problems. This new eleventh edition also features Next Generation NCLEX®-style case studies and questions, a new chapter covering all systems cancers, additional case studies within the nursing care plans, and updated and expanded evidence-based content throughout to best reflect the latest standards and trends impacting pediatric nursing care today. Developmental approach clearly identifies developmental tasks and influences at each stage of a child's growth. Emphasis on wellness features health promotion chapters for each developmental stage of childhood. Critical thinking case studies with answers are provided throughout the text. Quality patient outcomes are highlighted within nursing management discussions for major diseases and disorders. Drug alerts draw attention to potential safety issues, reflecting QSEN safety initiative. Family focus includes a separate family chapter as well as family content and Family-Centered Care boxes integrated throughout the text. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Evidence-Based Practice boxes focus attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. Chapter on complementary & alternative therapy offer timely topics to aid in providing complete, comprehensive care. Nursing care plans provide a model for planning patient care and include rationales that provide the "why." Research Focus boxes highlight current studies that impact pediatric nursing today. Cultural content and Cultural Considerations boxes are integrated throughout the text to draw attention to customs and beliefs of different cultures that influence child care. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Nursing tips offer helpful hints and practical, clinical information of a non-emergency nature. Nursing alerts feature critical information that MUST BE considered in providing care. Emergency Treatment sections provide a quick reference in critical situations. Nursing care guidelines provide clear, step-by-step instructions for performing specific skills or procedures.

A most trusted authority in pediatric nursing, this book provides unmatched, comprehensive coverage of pediatric growth, development and conditions. Its unique 'age and stage' approach covers child development and health promotion as well as specific health problems organised by age groups and body systems.
