volcanology in practice and to identify areas that need to be addressed for future progress. It shows how volcano crises are managed in practice, and helps to establish best practices. Consequently the book brings together authors from all over the globe who work with volcanoes, ranging from observatory volcanologists, disaster practitioners and government officials to NGO-based and government practitioners to address three key aspects of volcanic crises. First, the book explores the unique nature of volcanic hazards, which makes them a particularly challenging threat to forecast and manage, due in part to their varying spatial and temporal characteristics. Second, it presents lessons learned on how to best manage volcanic events based on a number of crises that have shaped our understanding of volcanic hazards and crises management. Third, it discusses the diverse and wide-ranging aspects of communication involved in crises, which merge old practices and new technologies to accommodate an increasingly challenging and globalised world. The information and insights presented here are essential to tapping established knowledge, moving towards more robust volcanic crises management, and understanding how the volcanic world is perceived from a range of standpoints and contexts around the globe. This comprehensive Handbook summarizes existing work and presents new concepts and

A Stranger to Myself: The Inhumanity of War, Russia 1941-44 is the haunting memoir of a young German soldier on the Russian front during World War II. Willy Peter Reese was only twenty years old when he found himself marching through Russia with orders to take no prisoners. Three years later he was dead. Bearing witness to--and participating in--the atrocities of war, Reese recorded his reflections in his diary, leaving behind an intelligent, touching, and illuminating perspective on life on the eastern front. He documented the carnage perpetrated by both sides, the destruction which was exacerbated by the young soldiers' hunger, frostbite, exhaustion, and their daily struggle to

survive. And he wrestled with his own sins, with the realization that what he and his fellow soldiers had done to civilians and enemies alike was unforgivable, with his growing awareness of the Nazi policies toward Jews, and with his deep disillusionment with himself and his fellow men. An international sensation, A Stranger to Myself is an unforgettable account of men at war.

This remarkable anthology introduces the short fiction of fourteen writers, major figures in the literary movements of three generations, who represent a range of class, ethnic, age, and political perspectives. It is filled with "unexpected gems", writes Scarlet Cheng in Belles Lettres, including Lin Hai-yin's story of a woman suffering under a feudal system that dominated Old China; Chiang Hsiao-yun's optimistic solutions to problems of the elderly in the rapidly changing Taiwan of the 1980; and in between, a dozen richly diverse stories of aristocrats, comrades, wives, concubines, children, mothers, sexuality, rape, female initiation, and the tensions between traditional and modern life. "This is not western feminism with an Asian accent", says Bloomsbury Review, "but a description of one culture's reality... The woman protagonists survive both despite and because of their existence in a changing Taiwan." This book includes biographical headnotes, an introduction that addresses the literary movements represented, and an extensive bibliography.

during the Old West era, the land run, pioneer life, and statehood. There is also a focus on major figures such as Sequoyah, John Ross, Elias Boudinot, Stand Watie and many more. Oklahoma History: Volume One also highlights Oklahoma geography, including mountain ranges and rivers. 13 different map assignments will help students gain an understanding of the state's topography.

A lively and stimulating resource for all first year students of human geography, this introductory Reader comprises key published writings from the main fields of human geography. Because the subject is both broad and necessarily only loosely defined, a principal aim of this book is to present a view of the subject which is theoretically informed and yet recognises that any view is partial, contingent and subject to change. The extracts selected are accessible and raise issues of method and theory as well as fact. The editors have chosen articles that not only represent main currents in the present flow of academic geography but which are also responsive to developments outside of the discipline. Their selection contains a mixture of established and recent writings and each section features a contextualizing introduction and detailed suggestions for further reading.
