Jesus Will Show You the Way Forward Today ' s headlines shout of modern plagues, social tensions, economic crises, and rampant depression. Many are asking, " What day is it on God ' s prophetic calendar? " Trusted Bible teacher and pastor Dr. David Jeremiah answers this question by opening up the Word of God to reveal what it has to say about the days in which we are living and offer hope to believers. In this ten-lesson accompanying study guide, Dr. Jeremiah deals with ten prophetic issues as current as the morning news. You will thread your way through problems that Jesus predicted—precursors of the Tribulation—and learn what steps you should take to navigate them. Even as the world collapses, you can be sure that the Lord is building His Church! You can say something, do something, pray something, preach something, and live by the convictions of Christ. Each lesson includes: An outline of the main subjects and Scriptures covered during the lesson. An overview of Dr. Jeremiah ' s teaching on the topic being studied. Application questions to help both individuals and small groups delve into the content and the Bible. A Did You Know? Section that adds a point of interest to the lesson. This is no time to be discouraged. Your risen and exalted Lord Jesus Christ—your enthroned Savior—knows the way forward. He will show you where to go from here.

*This book is a guide for readers who are curious about what they see along the coast. What are the animals and plants that live along the shore? How were the rock layers in the cliffs formed? What was this place like 150 years ago? Who used this decrepit jetty? The core of the book takes a journey around the coast near Melbourne, Victoria, Australia, beginning on Mornington Peninsula's ocean shore at Point Nepean*

then heading east towards Flinders. It covers all of the Western Port coast around to San Remo as well as the shores of Phillip Island and French Island. This 320 kilometre shoreline offers a variety of scenery, from the magnificent cliffs of Cape Schanck and Cape Woolamai to the quiet backwaters at the top of Western Port. Just seventy kilometres from Melbourne, French Island can feel almost as remote as the outback, while nearby Cowes on Phillip Island is abuzz in the summer. An introductory chapter gives a brief overview of early history relating to the coast. There are traces of thousands of years of Aboriginal occupation of the area. You can tread in the footsteps of explorers like George Bass and early French navigators, and see the site of Victoria's second prison settlement at Corinella. You may be interested in remnants of early industries including salt making and granite quarrying, and tourism hot spots of the nineteenth and early twentieth centuries like Sorrento and Flinders. Most of the rock outcrops around Western Port are geologically young, but Cape Woolamai is formed from Devonian granite around 370 million years old. The chapter on landforms will point out these granites, as well as the solidified lava of volcanoes and sedimentary rocks deposited by ancient rivers and seas. Western Port is renowned for its wildlife and there are wonderful places where nature thrives. Visitors come to Phillip Island especially to see little penguins, seals and thousands of nesting short-tailed shearwaters. Almost all of the waters of Western Port are protected for migratory wading birds which feed on its vast mud flats. Mushroom Reef Marine Sanctuary, and French Island, Yaringa, Churchill Island and Port Phillip Heads Marine National Parks protect many kinds of sea and shore creatures. Belts of mangroves and wide saltmarshes may seem unappealing at first, but they will reward any efforts you make to appreciate them. The pictures in the chapter on animals and plants will help you to identify the species you are most likely to see.
