--Michael Schaub, NPR In THE POWER, the world is a recognizable place: there's a rich Nigerian boy who lounges around the family pool; a foster kid whose religious parents hide their true nature; an ambitious American politician; a tough London girl from a tricky family. But then a vital new force takes root and flourishes, causing their lives to converge with devastating effect. Teenage girls now have immense physical power--they can cause agonizing pain and even death. And, with this small twist of nature, the world drastically resets. From award-winning author Naomi Alderman, THE POWER is speculative fiction at its most ambitious and provocative, at once taking us on a thrilling journey to an alternate reality, and exposing our own world in bold and surprising ways.

Meet the night sky, down under From eclipses to aurorae, comets to constellations, this is the story of the night sky above Aotearoa New Zealand. It looks at what is special about our southern skies, which have only been explored very recently compared to those in the northern hemisphere. It showcases our 'family of light', the major stars and objects of our sky and their associated meanings, history and cultural importance, explains Polynesian celestial navigation, which brought the first people here, and Maori astronomy or tatau arorangi, which helped people live here once they arrived. Finally, it delves into modern astronomy, covering some of New Zealand's amateur and professional scientific astronomers and their research, and looks at our observatories and the increasing popularity of dark sky tourism. This is an updated and newly revised edition of the classic book The Art of Photography: An Approach to Personal Expression. Originally published in 1994 and first revised in 2010, The Art of Photography has sold well over 100,000 copies and has firmly established itself as the most readable, understandable, and complete textbook on photography. Featuring nearly 200 beautiful photographs in both black-and-white and color, as well as numerous charts, graphs, and tables, this book presents the world of photography to beginner, intermediate, and advanced photographers who seek to make a personal statement through the medium of photography. Without talking down to anyone or talking over anyone's head, renowned photographer, teacher, and author Bruce Barnbaum presents how-to techniques for both traditional and digital approaches. In this newest edition of the book, Barnbaum has included many new images and has completely revised the text, with particular focus on two crucial chapters covering digital photography: he revised a chapter covering the digital zone system, and includes a brand-new chapter on image adjustments using digital tools. There is also a new chapter discussing the concepts of "art versus technique" and "traditional versus digital" approaches to photography. Throughout the book, Barnbaum goes well beyond the technical, as he delves deeply into the philosophical, expressive, and creative aspects of photography so often avoided in other books. Barnbaum is recognized as one of the world's finest landscape and architectural photographers, and for decades has been considered one of the best instructors in the field of photography. This latest incarnation of his textbook—which has evolved, grown, and been refined over the past 45 years—will prove to be an ongoing, invaluable photographic reference for years to come. It is truly the resource of choice for the thinking photographer. Topics include: • Elements of Composition • Visualization • Light and Color • Filters • Black-and-White • The Digital Zone System • The Zone System for Film • Printing and Presentation • Exploding Photographic Myths • Artistic Integrity • Realism, Abstraction, and Art • Creativity and Intuition • A Personal Philosophy • And much, much more...

From New York Times bestselling author Naomi Wolf, Outrages explores the history of state-sponsored censorship and violations of personal freedoms through the inspiring, forgotten history of one writer's refusal to stay silenced. Newly updated, first North American edition--a paperback original In 1857, Britain codified a new civil divorce law and passed a severe new obscenity law. An 1861 Act of Parliament streamlined the harsh criminalization of sodomy. These and other laws enshrined modern notions of state censorship and validated state intrusion into people's private lives. In 1861, John Addington Symonds, a twenty-one-year-old student at Oxford who already knew he loved and was attracted to men, hastily wrote out a seeming renunciation of the long love poem he'd written to another young man. Outrages chronicles the struggle and eventual triumph of Symonds—who would become a poet, biographer, and critic—at a time in British history when even private letters that could be interpreted as homoerotic could be used as evidence in trials leading to harsh sentences under British law. Drawing on the work of a range of scholars of censorship and of LGBTQ+ legal

history, Wolf depicts how state censorship, and state prosecution of same-sex sexuality, played out—decades before the infamous trial of Oscar Wilde—shadowing the lives of people who risked in new ways scrutiny by the criminal justice system. She shows how legal persecutions of writers, and of men who loved men affected Symonds and his contemporaries, including Christina and Dante Gabriel Rossetti, Algernon Charles Swinburne, Walter Pater, and the painter Simeon Solomon. All the while, Walt Whitman's *Leaves of Grass* was illicitly crossing the Atlantic and finding its way into the hands of readers who reveled in the American poet's celebration of freedom, democracy, and unfettered love. Inspired by Whitman, and despite terrible dangers he faced in doing so, Symonds kept trying, stubbornly, to find a way to express his message—that love and sex between men were not “morbid” and deviant, but natural and even ennobling. He persisted in various genres his entire life. He wrote a strikingly honest secret memoir—which he embargoed for a generation after his death—enclosing keys to a code that the author had used to embed hidden messages in his published work. He wrote the essay *A Problem in Modern Ethics* that was secretly shared in his lifetime and would become foundational to our modern understanding of human sexual orientation and of LGBTQ+ legal rights. This essay is now rightfully understood as one of the first gay rights manifestos in the English language. Naomi Wolf's *Outrages* is a critically important book, not just for its role in helping to bring to new audiences the story of an oft-forgotten pioneer of LGBTQ+ rights who could not legally fully tell his own story in his lifetime. It is also critically important for what the book has to say about the vital and often courageous roles of publishers, booksellers, and freedom of speech in an era of growing calls for censorship and ever-escalating state violations of privacy. With *Outrages*, Wolf brings us the inspiring story of one man's refusal to be silenced, and his belief in a future in which everyone would have the freedom to love and to speak without fear.

The Art of Photography, 2nd Edition

Stories of powerhouse women who pushed for justice in politics, medicine, art, music, religion, tribal leadership, and more. In fighting to pass the 19th Amendment, brave suffragists like Susan B. Anthony and Emmeline B. Wells fought to end laws and take down barriers that prevented them from voting. Champions of Change introduces young readers not only to Anthony and Wells, but also to a diverse group of firsts and freedom-fighters in America's fight for equality, such as: Zitkala-Sa, co-founder of the National Council of American Indians Martha Hughes Cannon, America's first female state senator Hannah Kaaepa, an advocate for Hawaiian women's rights Barbara Toomer, who was jailed 35 times for protests that led to the passage of the Americans with Disabilities Act and the women of the Kanab Town Council, one of the first all-female city councils in the country. This timely collection of mini biographies highlights 25 champions for justice, includes colorful portraits of each, and presents actual photos of the individuals. Naomi Watkins, Ph.D. is an educational consultant, women's advocate, and community builder. A former middle school English teacher, she specializes in curriculum development and school district consulting. She has been published in international journals such as The Reading Teacher, Journal of Children's Literature, TESOL Journal, and Middle School Journal. Katherine Kitterman is the historical director for Better Days 2020, an organization that explores stories of women who shaped Utah's history. She is currently a Ph.D. candidate in American History at American University in Washington, D.C., where she has worked to bring history to life at the Smithsonian Institution, the Holocaust Memorial Museum, and Woodrow Wilson House. Brooke Smart is an illustrator based in Sandy, Utah, with a BFA in Illustration from Brigham Young University. Her illustration clients include the New York Times, Gathre, Better Days 2020, Bravery Magazine, and private commissions. Brooke recently won honorable mention in the 2016 Society of Children's Book Writers and Illustrators Portfolio Showcase in New York City.

In this volume, leading scholars of photography and media examine photography's vital role in the evolution of media and communication in the nineteenth century. In the first half of the nineteenth century, the introduction of telegraphy, the development of a cheaper and more reliable postal service, the rise of the mass-circulation press, and the emergence of the railway dramatically changed the way people communicated and experienced time and space. Concurrently, photography developed as a medium that changed how images were produced and circulated. Yet, for the most part, photography of the era is studied outside the field of media history. The contributors to this volume challenge those established disciplinary boundaries as they programmatically explore the intersections of photography and “new media” during a period of fast-paced change. Their essays look at the emergence and early history of photography in the context of broader changes in the history of communications; the role of the nascent photographic press in photography's infancy; and the development of photographic techniques as part of a broader media culture that included the mass-consumed novel, sound recording, and cinema. Featuring essays by noteworthy historians in photography and media history, this discipline-shifting examination of the communication revolution of the nineteenth century is an essential addition to the field of media studies. In addition to the editors, contributors to this volume are Geoffrey Batchen, Geoffrey Belknap, Lynn Berger, Jan von Brevern, Anthony Enns, André Gaudreault, Lisa Gitelman, David Henkin, Erkki Huhtamo, Philippe Marion, Peppino Ortoleva, Steffen Siegel, Richard Taws, and Kim Timby. This anthology is dedicated to pictures of women taken by women. It begins with photographs by the two great

female photographers of the 19th century, Clementina Lady Hawarden and Julia Margaret Cameron, and covers a period of over 100 years to the present day. Some 160 images by 90 photographers present us with the entire spectrum of female self-definition both behind and in front of the camera. As such, the four major themes of social reality, the family, the female body and virtual reality come to the fore with their multifarious pictures from the worlds of art, literature, fashion, dance and show business. There are self-portraits as well as female photographers' portraits of female photographers, daughters, mothers and, of course, several important female figures including Virginia Woolf, Greta Garbo, Martha Graham, Simone de Beauvoir, Maria Callas, Madonna, Hillary Clinton, and even Her Majesty the Queen.

All of us have that one object that holds deep meaning--something that speaks to our past, that carries a remarkable story. Bestselling author Bill Shapiro collected this sweeping range of stories--he talked to everyone from renowned writers to Shark Tank hosts, from blackjack dealers to teachers, truckers, and nuns, even a reformed counterfeiter--to reveal the often hidden, always surprising lives of objects.

A New York Times Best Mystery Novel of 2021 Set in 1944 Chicago, Edgar Award-winner Naomi Hirahara's eye-opening and poignant new mystery, the story of a young woman searching for the truth about her revered older sister's death, brings to focus the struggles of one Japanese American family released from mass incarceration at Manzanar during World War II. Chicago, 1944: Twenty-year-old Aki Ito and her parents have just been released from Manzanar, where they have been detained by the US government since the aftermath of Pearl Harbor, together with thousands of other Japanese Americans. The life in California the Itos were forced to leave behind is gone; instead, they are being resettled two thousand miles away in Chicago, where Aki's older sister, Rose, was sent months earlier and moved to the new Japanese American neighborhood near Clark and Division streets. But on the eve of the Ito family's reunion, Rose is killed by a subway train. Aki, who worshipped her sister, is stunned. Officials are ruling Rose's death a suicide. Aki cannot believe her perfect, polished, and optimistic sister would end her life. Her instinct tells her there is much more to the story, and she knows she is the only person who could ever learn the truth. Inspired by historical events, Clark and Division infuses an atmospheric and heartbreakingly real crime with rich period details and delicately wrought personal stories Naomi Hirahara has gleaned from thirty years of research and archival work in Japanese American history.

"[A] uniquely inclusive perspective that will inspire conviction, passion, and action." —Kirkus Reviews (starred review) An empowering, engaging young readers guide to understanding and battling climate change from the expert and bestselling author of This Changes Everything and On Fire, Naomi Klein. Warmer temperatures. Fires in the Amazon. Superstorms. These are just some of the effects of climate change that we are already experiencing. The good news is that we can all do something about it. A movement is already underway to combat not only the environmental effects of climate change but also to fight for climate justice and make a fair and livable future possible for everyone. And young people are not just part of that movement, they are leading the way. They are showing us that this moment of danger is also a moment of great opportunity—an opportunity to change everything. Full of empowering stories of young leaders all over the world, this information-packed book from award-winning journalist and one of the foremost voices for climate justice, Naomi Klein, offers young readers a comprehensive look at the state of the climate today and how we got here, while also providing the tools they need to join this fight to protect and reshape the planet they will inherit.

A History of Photography

Candid and personal, dazzling with color and immediacy, this first and only monograph of a rising star of the photography scene features work from major labels and magazines, outtakes from shoots, and newly commissioned texts by Edward Enninful and Ekow Eshun on the importance of authentic diversity behind and in front of the camera. From major portraits of the likes of Kendall Jenner, FKA Twigs, and Tyler, the Creator to cover shoots for leading magazines such as Time, Rolling Stone, and Garage, Campbell Addy has quickly become one of the most in-demand photographers of his generation. The book opens with a foreword by British Vogue's editor-in-chief, Edward Enninful, discussing the powerful intersection of photography, race, beauty, and representation. This is followed by a broad selection of Addy's striking photographs, which range from prominent fashion and magazine commissions to candid portraiture. Featuring recognizable cover shots alongside unpublished outtakes and unseen

photography, viewers are afforded insight into Addy's creative process on set. Quotes from leading Black figures including Naomi Campbell and Nadine Ijewere are woven between Addy's striking imagery, in which these trailblazing Black creatives reflect on the first time they felt seen in their industry. The book closes with a deeper exploration of Addy's more personal imagery and influences, paying tribute to the heritage of Black photographers through the work of Ajamu and James Barnor. In conversation with curator and writer Ekow Eshun, Addy balances his own experiences as a queer, Black photographer who left his Jehovah's Witness family home at sixteen with broader questions of identity, intimacy, and art which face many creatives today. Charged with energy, compassion and authenticity, this inaugural monograph signals a major talent whose influence and stature will only grow with time.

Containing 30 essays that embody the history of photography, this collection includes contributions from Niepce, Daguerre, Fox, Talbot, Poe, Emerson, Hine, Stieglitz, and Weston, among others.

This innovative text recounts the history of photography through a series of thematically structured chapters. Designed and written for students studying photography and its history, each chapter approaches its subject by introducing a range of international, contemporary photographers and then contextualizing their work in historical terms. The book offers students an accessible route to gain an understanding of the key genres, theories and debates that are fundamental to the study of this rich and complex medium. Individual chapters cover major topics, including: · Description and Abstraction · Truth and Fiction · The Body · Landscape · War · Politics of Representation · Form · Appropriation · Museums · The Archive · The Cinematic · Fashion Photography Boxed focus studies throughout the text offer short interviews, curatorial statements and reflections by photographers, critics and leading scholars that link photography's history with its practice. Short chapter summaries, research questions and further reading lists help to reinforce learning and promote discussion. Whether coming to the subject from an applied photography or art history background, students will benefit from this book's engaging, example-led approach to the subject, gaining a sophisticated understanding of international photography in historical terms.

In this landmark volume, Rosenblum (*A World History of Photography*) examines sympathetically the achievements of women in photography since its invention in 1839, and highlights society's failure to give them appropriate recognition. One research obstacle the author encountered was the 19th-century practice of men taking credit for work done by women. Here is work from 250 female camera artists, from Julia Margaret Cameron (b. 1815) to Annie Leibovitz (b. 1949), who, despite strong cultural resistance, mastered everything from early wet-plate views and portraits to 35 millimeter photojournalism, often initiating aesthetic and commercial improvements. Her chronicle of women's part in each era's artistic movements and media transitions, plus capsule biographies with an in-depth bibliography and index, make this a seminal reference work. The author's choice of 263 photographs seems to favor the esoteric, bringing to light a largely unknown world in vivid originality and broad archival conception.

Whether at UFW picket lines in California's Central Valley or capturing summertime street life in East Harlem Latinx photographers have documented fights for dignity and justice as well as the daily lives of ordinary people. Their powerful, innovative photographic art touches on family, identity, protest, borders, and other themes, including the experiences of immigration and marginalization common to many of their communities. Yet the work of these artists has largely been excluded from the documented history of photography in the United States. Through individual profiles of more than eighty photographers from the early history of the photographic medium to the present, Elizabeth Ferrer introduces readers to Latinx portraitists, photojournalists, and documentarians and their legacies. She traces the rise of a Latinx consciousness in photography in the 1960s and '70s and the growth of identity-based approaches in the 1980s and '90s. Ferrer argues that in many cases a shared sense of struggle has motivated photographers to work purposefully, driven by a deep sense of resistance, social and political commitments, and cultural affirmation, and she highlights the significance of family photos to their approaches and outlooks. Works range from documentary and street photography to narrative series to conceptual projects. *Latinx Photography in the United States* is the first book to offer a parallel history of photography, one that no longer lies at the margins but rather plays a crucial role in imagining and creating a broader, more inclusive American visual history.

From a delivery boy to one of the most important industrialists in American history, George Eastman's career developed in a particularly American way. The founder of Kodak died in 1932, and left his house to the University of Rochester. Since 1949 the site has operated as an international museum of photography and film, and today holds the largest collection of its kind in the world. The continually expanding photography collection contains over 400,000 images and negatives - among them the work of Alfred

Stieglitz, Edward Steichen, Ansel Adams and others - as well as 23,000 cinema films, five million film stills, one of the most important silent film collections, technical equipment and a library with 40,000 books on photography and film. The George Eastman House is a pilgrimage site and a place of worship for researchers, photographers and collectors from all over the world. This volume shows in chronological order the most impressive images and the most important developments in the art of light that is photography. It provides in its huge collection and themes a unique survey of the medium from its origins until now.

An affectionate and evocative visual celebration of the life and career of Amy Winehouse, including photographs, memorabilia, and the recollections of those whose lives she touched Amy Winehouse left an indelible mark on both the music industry and pop culture with her soulful voice and bold '60s-inspired aesthetic. Featuring stories and anecdotes from a wide range of characters connected to Amy, specially commissioned photography of memorabilia, styled and dressed themed sets incorporating Amy's clothing, possessions, and lyrics, and previously unseen archival images, this volume presents an intimate portrait that celebrates Amy's creative legacy. Interspersed throughout are personal reflections on Amy's life and work, provided by her friends, colleagues, and fans. These include Ronnie Spector, Vivienne Westwood, Bryan Adams, Little Simz, and Carl Barat, as well as Doug Landlord of the Hawley Arms, tattooist Henry Hate, goddaughter Dionne Bromfield, and DJ Bioux. Each one has a personal story to share, and together their anecdotes and reflections build into a complex picture of a much admired but troubled star. Vice Culture Editor Emma Garland puts these insights into context with an introduction that highlights the principal events and achievements in Amy's life and work, and the key characters that played a part in it. Organized broadly chronologically, the book features newly shot lyric sheets, sketches, and ephemera together with contextual photographs and video stills, including album, single, and promotional artworks and outtakes. Punctuating the story are photographs of dressed room sets each created, designed, and styled especially for the book by Naomi Parry to evoke a period or aspect of Amy's life or personality, incorporating Amy's clothing, possessions, lyrics, and other memorabilia.

A picture-rich field guide to American photography, from daguerreotype to digital. We are all photographers now, with camera phones in hand and social media accounts at the ready. And we know which pictures we like. But what makes a "good picture"? And how could anyone think those old styles were actually good? Soft-focus yearbook photos from the '80s are now hopelessly—and happily—outdated, as are the low-angle portraits fashionable in the 1940s or the blank stares of the 1840s. From portraits to products, landscapes to food pics, Good Pictures proves that the history of photography is a history of changing styles. In a series of short, engaging essays, Kim Beil uncovers the origins of fifty photographic trends and investigates their original appeal, their decline, and sometimes their reuse by later generations of photographers. Drawing on a wealth of visual material, from vintage how-to manuals to magazine articles for working photographers, this full-color book illustrates the evolution of trends with hundreds of pictures made by amateurs, artists, and commercial photographers alike. Whether for selfies or sepia tones, the rules for good pictures are always shifting, reflecting new ways of thinking about ourselves and our place in the visual world.

"Naomi Campbell's life is a fairytale for the nineties: A black teenager from South London is discovered window shopping in Covent Garden. In the flash of a camera bulb, she becomes one of the world's best-known faces, and personalities - a new beauty icon for the nineties." "For this book, Naomi has handpicked her favorite photographs - many never before published - by fashion's top photographers. This vivid portrait follows the supermodel from the thousand-watt glow of the runway all the way to the unchoreographed intimacy of Naomi's private world. Images by such celebrated photographers as Richard Avedon, Steven Meisel, and Herb Ritts highlight Naomi's individual and highly creative relationship with the camera." "A foreword by veteran model Iman, an introduction by pop legend Quincy Jones, and an exclusive interview with Naomi provide an inspirational backdrop for this up-close look at the beauty, talent, and power that make up one of the most successful black women in popular culture today." --Book Jacket.

prickling over her skin despite the hot, heavy air. She took a step back, then two, as the urge to run fell over her." Naomi Bowes lost her innocence the night she followed her father into the woods. In freeing the girl trapped in the root cellar, Naomi revealed the horrible extent of her father's crimes and made him infamous. No matter how close she gets to happiness, she can't outrun the sins of Thomas David Bowes. Now a successful photographer living under the name Naomi Carson, she has found a place that calls to her, a rambling old house in need of repair, thousands of miles away from everything she's ever known. Naomi wants to embrace the solitude, but the kindly residents of Sunrise Cove keep forcing her to open up—especially the determined Xander Keaton. Naomi can feel her defenses failing, and knows that the connection her new life offers is something she's always secretly craved. But the sins of her father can become an obsession, and, as she's learned time and again, her past is never more than a nightmare away.

Here is the history we've been waiting for ... erudite and entertaining ... she shows how pictures really did change our world. Her shrewd selection of over 600 fascinating photos (many in colour) illustrate a history that meets the ultimate test; open to any page and you're hooked ... and it's free from tormenting academic jargon. Camera Arts This groundbreaking survey of international photography, which examines the discipline across the full range of its uses by both professionals and amateurs, has been expanded and brought up to date for this second edition. Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art, science, social science, travel, war, fashion, the mass media and individual practitioners. These broad topics complement a fully developed cultural context whose emphasis is more on key ideas than individuals. The author also pays close attention to how contemporary practitioners, commentators and beholders have talked about specific works, the nature of photography and the photographers changing role in society.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Studyguide for World History of Photography by Rosenblum, Naomi

5th Edition

A new edition of the definitive title in the field of contemporary art photography by one of the world's leading experts on the subject, Charlotte Cotton. In the twenty-first century, photography has come of age as a contemporary art form. Almost two centuries after photographic technology was first invented, the art world has fully embraced it as a legitimate medium, equal in status to painting and sculpture. The Photograph as Contemporary Art introduces the extraordinary range of contemporary art photography, from portraits of intimate life to highly staged directorial spectacles. Arranged thematically, the book reproduces work from a vast span of photographers, including Andreas Gursky, Barbara Kasten, Catherine Opie, Cindy Sherman, Deana Lawson, Diana Markosian, Elle Pérez, Gregory Halpern, Lieko Shiga, Nan Goldin, Paul Mpagi Sepuya, Pixy Liao, Susan Meiselas, and Zanele Muholi. This fully revised and updated new edition revitalizes previous discussion of works from the 2000s through dialogue with more recent practice. Alongside previously featured work, Charlotte Cotton celebrates a new generation of artists who are shaping photography as a culturally significant medium for our current sociopolitical climate. A superb resource, The Photograph as Contemporary Art is a uniquely broad and diverse reflection of the field.

An up-to-date edition of the authoritative history of photography - widely embraced by both students and general readers. Naomi Rosenblum's classic history of photography traces the evolution of this young art form chronologically and thematically. Exploring the diverse roles that photography has played in the communication of ideas, Rosenblum devotes special attention to topics such as portraiture, documentation, advertising, and photojournalism, and to the camera as a means of personal artistic expression. Her text is illustrated with nearly nine hundred images by photographers both celebrated and little known, arranged in stimulating juxtapositions that illuminate their visual power. This fifth edition of A World History of Photography is substantively revised and updated. The photography of the past several decades is reevaluated from a contemporary perspective, and international developments are covered in greater detail. The main strands of today's complex universe of digital

image-making are masterfully summarised and placed in their historical context, and the careers of representative contemporary photographers are studied in depth. Thoughtfully written, carefully and abundantly illustrated, and provided with a full apparatus - including a chronology, glossary, and annotated bibliography - Rosenblum's volume remains the indispensable work on its subject. AUTHORS: Naomi Rosenblum, recognized as a pioneering historian of photography, holds a PhD from the Graduate Center of the City University of New York. Her numerous other works include A History of Women Photographers. Diana Stoll, an independent curator, writer, and editor, was formerly senior editor at Aperture.
