

World War Z

Discover the best in science fiction, fantasy, and horror with the 2020 Del Rey ebook sampler! 2020 is a year of new chapters. Max Brooks, who helped us survive a zombie pandemic, now searches for a more elusive threat: Bigfoot. Kevin Hearne, the author of The Iron Druid Chronicles, takes us back to that beloved world with a new spin-off series—and dreams up a different epic fantasy series with an entirely new mythology. Peter F. Hamilton masterfully builds a blazing space opera series. Silvia Moreno-Garcia, who dazzled us with her vision of 1920s Mexico and the Mayan underworld, reimagines the classic gothic suspense novel with the story of an isolated mansion in the 1950s Mexican countryside. These eleven recent and upcoming works are full of action. A young space pilot tries to save his best friend—the heir to a galactic empire—from a ruthless rebellion. A girl whose interdimensional doppelgängers have died in 372 worlds discovers a secret that puts her life in jeopardy. A man whose daughter has newfound, terrifying powers must risk his life to save hers. The last human in the galaxy hides her identity while trying to discover the truth about humanity. A woman traveling through time finds a mysterious child with unimaginable power. A spell allows women to control their own fertility in an epic feminist fantasy. This captivating ebook sampler contains excerpts from: DEVOLUTION by Max Brooks THE WOMEN ’ S WAR by Jenna Glass SALVATION by Peter F. Hamilton INK & SIGIL by Kevin Hearne A PLAGUE OF GIANTS by Kevin Hearne THE VANISHED BIRDS by Simon Jimenez THE SPACE BETWEEN WORDS by Micaiah Johnson THE LAST HUMAN by Zack Jordan MEXICAN GOTHIC by Silvia Moreno-Garcia THE NOBODY PEOPLE by Bob Proehl BONDS OF BRASS by Emily Skrutskie In a classic work of alternate history, the United States is divided up and ruled by the Axis powers after the defeat of the Allies during World War II. Reissue. Winner of the Hugo Award for Best Novel.

Discusses the history of the zombie film genre and includes a comprehensive zombie filmography.

Winner of the Pulitzer Prize: “ The richest and most powerful single document of the American experience in World War II ” (The Boston Globe). “ The Good War ” is a testament not only to the experience of war but to the extraordinary skill of Studs Terkel as an interviewer and oral historian. From a pipe fitter ’ s apprentice at Pearl Harbor to a crew member of the flight that dropped the atomic bomb on Nagasaki, his subjects are open and unrelenting in their analyses of themselves and their experiences, producing what People magazine has called “ a splendid epic history ” of WWII. With this volume Terkel expanded his scope to the global and the historical, and the result is a masterpiece of oral history. “ Tremendously compelling, somehow dramatic and intimate at the same time, as if one has stumbled on private accounts in letters locked in attic trunks . . . In terms of plain human interest, Mr. Terkel may well have put together the most vivid collection of World War II sketches ever gathered between covers. ” —The New York Times Book Review “ I promise you will remember your war years, if you were alive then, with extraordinary vividness as you go through Studs Terkel ’ s book. Or, if you are too young to remember, this is the best place to get a sense of what people were feeling. ” —Chicago Tribune “ A powerful book, repeatedly moving and profoundly disturbing. ” —People

A Firsthand Account of the Rainier Sasquatch Massacre

May 16th. 1201 hrs. We are now under siege. Beyond the silo access doors, we have a small army of beaten and battered undead to contend with. They only want one thing... Day by Day Armageddonis the handwritten journal of one man and his struggle for survival. Trapped in the midst of global disaster, he must make decisions that could mean life, or which could condemn him eternally to walk as one of them. Enter, if you dare, into his world. The world of the undead.

#1 NEW YORK TIMES BESTSELLER • “ Prepare to be entranced by this additively readable oral history of the great war between humans and zombies. ” —Entertainment Weekly We survived the zombie apocalypse, but how many of us are still haunted by that terrible time? We have (temporarily?) defeated the living dead, but at what cost? Told in the haunting and riveting voices of the men and women who witnessed the horror firsthand, World War Z is the only record of the pandemic. The Zombie War came unthinkable close to eradicating humanity. Max Brooks, driven by the urgency of preserving the acid-etched first-hand experiences of the survivors, traveled across the United States of America and throughout the world, from decimated cities that once teemed with upwards of thirty million souls to the most remote and inhospitable areas of the planet. He recorded the testimony of men, women, and sometimes children who came face-to-face with the living, or at least the undead, hell of that dreadful time. World War Z is the result. Never before have we had access to a document that so powerfully conveys the depth of fear and horror, and also the ineradicable spirit of resistance, that gripped human society through the plague years. THE INSPIRATION FOR THE MAJOR MOTION PICTURE “ Will spook you for real. ” —The New York Times Book Review “ Possesses more creativity and zip than entire crates of other new fiction titles. Think Mad Max meets The Hot Zone. . . . It ’ s Apocalypse Now, pandemic-style. Creepy but fascinating. ” —USA Today “ Will grab you as tightly as a dead man ’ s fist. A. ” —Entertainment Weekly, EW Pick “ Probably the most topical and literate scare since Orson Welles ’ s War of the Worlds radio broadcast . . . This is action-packed social-political satire with a global view. ” —Dallas Morning News

“ Brilliant. . . . Lewis has given us a spectacular account of two great men who faced up to uncertainty and the limits of human reason. ” —William Easterly, Wall Street Journal Forty years ago, Israeli psychologists Daniel Kahneman and Amos Tversky wrote a series of breathtakingly original papers that invented the field of behavioral economics. One of the greatest partnerships in the history of science, Kahneman and Tversky ’ s extraordinary friendship incited a revolution in Big Data studies, advanced evidence-based medicine, led to a new approach to government regulation, and made much of Michael Lewis ’ s own work possible. In The Undoing Project, Lewis shows how their Nobel Prize–winning theory of the mind altered our perception of reality.

The Morningstar virus. Those infected suffer delerium, fever, violent behaviour ... and a hundred per cent mortality rate. But that's not the worst of it. The victims return from the dead to walk the earth. And when a massive military operation fails to contain the plague of the living dead, it escalates into a worldwide pandemic. On one side of the world, thousands of miles from home, a battle-hardened general surveys the remnants of his command: a young medic, a veteran photographer, a rash private, and dozens of refugees -- all of them his responsibility. Meanwhile in the United States, an army colonel discovers the darker side of Morningstar and collaborates with a well-known journalist to leak the information to the public...

When a remote mountain community is suddenly beset by a rash of grisly murders, the Special Tactics and Rescue Squad—a paramilitary unit—is dispatched to investigate

First in the cult classic trilogy: “A fantastic zombie novel . . . There are many layers to this zombie apocalypse, and this book just gets things rolling” (Booklist). Welcome to New York City, Population Zero? The power grid has collapsed. There is no running water, no light, no heat. The massive neon signs of Times Square are dark now, and the subway trains crouch silent in their tunnels, waiting for commuters who will never return. An epidemic of staggering lethality has passed over the city and left nothing living in its wake. And yet the city is not deserted. The dead have returned to life, and they’re hungry. The millions of people who once worked and lived in New York have been turned into cannibalistic monsters whose only function is to consume. No living person would dare enter the city—it would be suicide. Dekalb doesn't have a choice. He must protect his daughter's future, and that means retrieving vital medical supplies from the UN building in Midtown. A cadre of teenage girl soldiers have been recruited to help him find what he needs, and get back alive. They're well armed. They're devoted to their mission and willing to sacrifice anything to pull it off. But the odds against them are staggering. Especially when it turns out that not all zombies are created equal. Deep inside the city a medical student named Gary comes back from the dead different—his mind is intact. He can still think and feel. He's hungry, just like the rest, but unlike them he can plan, plot, and scheme. He can even lead the others, bending them to his will. Soon he has a small army at his command, a growing mob of rotting corpses all devoted to one cause: to find meat for their master. When Dekalb and Gary cross paths sparks will fly, destinies will clash—and the future of humanity will be decided, one head shot at a time.

February, 2031: The global population now stands at an estimated 400 million, and every survivor bears the scars of humanity's decade-long struggle to defeat an enemy few believed could exist. Some nations have emerged from the war stronger than ever. Others still struggle to survive. Some no longer exist at all. In the aftermath of the zombie pandemic Keith Taylor, noted pre-war author of apocalyptic fiction, traveled the world to gather the first hand accounts of survivors from every walk of life, culture and strata of society, ranging from American political leaders to British journalists to Mongolian miners to members of India's homeless underclass. Together these chilling interviews describe the course of humanity's most brutal war, leading from the initial emergence of the virus in the Siberian wilderness to the visceral, heart-rending Shibuya footage, through the confusion of the US President's impeachment to the unintended and disastrous consequences of the UN's sweeping refugee amendment, and ending with us battered and broken, diminished but not defeated, in the fragile peace we now enjoy. Together these accounts represent the most illuminating and complete commentary to date of humanity's loss. From these candid interviews emerges an image of early 21st century civilization as it truly was: imperfect, fragmented and wholly unprepared for a disaster on such a scale. This is the Way the World Ends takes an unflinching, uncompromising look at the world we had and lost; a look at the pain we suffered due to our inability to accept a single, simple truth: Zombies are real. Note: Readers who lived through the pandemic may find the interviews contained within this collection distressing. Discretion is advised.

In the thrilling sequel to the New York Times bestselling novel Minecraft: The Island, a stranded hero stumbles upon another castaway—and discovers that teamwork might just be the secret to survival. Wandering a vast, icy tundra, the explorer has never felt more alone. Is there anything out here? Did I do the right thing by leaving the safety of my island? Should I give up and go back? So many questions, and no time to ponder—not when dark is falling and dangerous mobs are on the horizon. Gurgling zombies and snarling wolves lurk in the night, and they’re closing in. With nowhere to hide, the lone traveler flees up a mountain, trapped and out of options . . . until a mysterious figure arrives, fighting off the horde singlehandedly. The unexpected savior is Summer, a fellow castaway and master of survival in these frozen wastes. Excited to find another person in this strange, blocky world, the explorer teams up with Summer, whose impressive mountain fortress as a safe haven . . . for now. But teamwork is a new skill for two people used to working alone. If they want to make it home, they will have to learn to work together—or risk losing everything.

World War Z: An Oral History of the Zombie WarWorld War ZAn Oral History of the Zombie WarBroadway Books

This fictionalized account of the first African-American regiment, called the Harlem Hellfighters by their enemies, to fight in World War I relates the heroic journey these soldiers undertook for a chance to fight for America. Original. 150,000 first printing.

Before the movie, this is the novel that gave life to Hawkeye Pierce, Trapper John, Hot Lips Houlihan, Frank Burns, Radar O'Reilly, and the rest of the gang that made the 4077th MASH like no other place in Korea or on earth. The doctors who worked in the Mobile Army Surgical Hospitals (MASH) during the Korean War were well trained but, like most soldiers sent to fight a war, too young for the job. In the words of the author, "a few flipped their lids, but most of them just raised hell, in a variety of ways and degrees." For fans of the movie and the series alike, here is the original version of that perfectly corrupt football game, those martini-laced mornings and sexual escapades, and that unforgettable foray into assisted if incompletd suicide—all as funny and poignant now as they were before they became a part of America's culture and heart.

The Zombie Film

From the Bestselling Author of World War Z

A Dictionary of Arts, Sciences, Literature and General Information

The much anticipated zombie horror-action film World War Z, starring Brad Pitt, an American action horror film directed by Marc Forster. Let's see some amazing facts and trivia about it that will turn you into a proper fan.

The most successful film franchise of all time, Star Wars thrillingly depicts an epic multigenerational conflict fought a long time ago in a galaxy far, far away. But the Star Wars saga has as much to say about successful strategies and real-life warfare waged in our own time and place. Strategy Strikes Back brings together over thirty of today's top military and strategic experts, including generals, policy advisors, seasoned diplomats, counterinsurgency strategists, science fiction writers, war journalists, and ground-level military officers, to explain the strategy and the art of war by way of the Star Wars films. Each chapter of Strategy Strikes Back provides a relatable, outside?the?box way to simplify and clarify the complexities of modern military conflict. A chapter on the case for planet building on the forest moon of Endor by World War Z author Max Brooks offers a unique way to understand our own sustained engagement in war-ravaged societies such as Afghanistan. Another chapter on the counterinsurgency waged by Darth Vader against the Rebellion sheds light on the logic behind past military incursions in Iraq. Whether using the destruction of Alderaan as a means to explore the political implications of targeting civilians, examining the pivotal decisions made by Yoda and the Jedi Council to differentiate strategic leadership in theory and in practice, or considering the ruthlessness of Imperial leaders to explain the toxicity of top-down leadership in times of war and battle, Strategy Strikes Back gives fans of Star Wars and aspiring military minds alike an inspiring and entertaining means of understanding many facets of modern warfare. It is a book as captivating and enthralling as Star Wars itself.

Frodo Baggins, bearer of the Ring of Power that would enable the evil Sauron to destroy all that is good in Middle-earth, takes on the task of carrying the Ring to Mount Doom to oversee its destruction. A new cover features artwork from the upcoming film adaptation of "The Lord of the Rings: The Fellowship of the Ring, " starring Elijah Wood, Sir Ian McKellen, Cate Blanchett, and Liv Tyler, scheduled for release in December. Being the First Part of The Lord of the Rings
Del Rey's Next Reads Sampler 2020 Edition
The World Book Encyclopedia

The dark side of humanity is explored in this electrifying science fiction thriller in which an epidemic virus terrorizes the earth. Causing its inhabitants to strike out on murderous rampages, the virus is caught through conversation and, once contracted, leads its host on a strange journey into another world where the undead roam the streets of the smallest towns and largest cities, hungry for human flesh. Describing in chilling detail what it would be like if thousands suddenly caught such a virus and struck out on a mass, never-ending, cannibalistic spree, this terrifying narrative is perfect for those who are ready to explore their darkest secret imaginings through a sinister and compelling literary work of art. This new edition includes a new afterword on the making of the new motion picture. Author of *Lincoln and His Admirals* (winner of the Lincoln Prize), *The Battle of Midway* (Best Book of the Year, *Military History Quarterly*), and *Operation Neptune*, (winner of the Samuel Eliot Morison Award for Naval Literature), Craig L. Symonds has established himself as one of the finest naval historians at work today. *World War II at Sea* represents his crowning achievement: a complete narrative of the naval war and all of its belligerents, on all of the world's oceans and seas, between 1939 and 1945. Opening with the 1930 London Conference, Symonds shows how any limitations on naval warfare would become irrelevant before the decade was up, as Europe erupted into conflict once more and its navies were brought to bear against each other. *World War II at Sea* offers a global perspective, focusing on the major engagements and personalities and revealing both their scale and their interconnection: the U-boat attack on Scapa Flow and the Battle of the Atlantic; the "miracle" evacuation from Dunkirk and the pitched battles for control of Norway fjords; Mussolini's Regia Marina-at the start of the war the fourth-largest navy in the world-and the dominance of the Kidō Butai and Japanese naval power in the Pacific; Pearl Harbor then Midway; the struggles of the Russian Navy and the scuttling of the French Fleet in Toulon in 1942; the landings in North Africa and then Normandy. Here as well are the notable naval leaders-FDR and Churchill, both self-proclaimed "Navy men," Karl Dönitz, François Darlan, Ernest King, Isoroku Yamamoto, Erich Raeder, Inigo Campioni, Louis Mountbatten, William Halsey, as well as the hundreds of thousands of seamen and officers of all nationalities whose live were imperiled and lost during the greatest naval conflicts in history, from small-scale assaults and amphibious operations to the largest armadas ever assembled. Many have argued that *World War II* was dominated by naval operations; few have shown and how and why this was the case. Symonds combines precision with story-telling verve, expertly illuminating not only the mechanics of large-scale warfare on (and below) the sea but offering wisdom into the nature of the war itself.

Did you know *The Lost Symbol* has set the record as the fastest selling adult novel in history, selling over one million in hardcover and e-book versions in the U.S., the UK and Canada, on its first day of release? The veteran producer and author of the bestseller *Hello, He Lied* takes a witty and critical look at the new Hollywood. Over the past decade, producer Lynda Obst gradually realized she was working in a Hollywood that was undergoing a drastic transformation. The industry where everything had once been familiar to her was suddenly disturbingly strange. Combining her own industry experience and interviews with the brightest minds in the business, Obst explains what has stalled the vast moviemaking machine. The calamitous DVD collapse helped usher in what she calls the New Abnormal (because Hollywood was never normal to begin with), where studios are now heavily dependent on foreign markets for profit, a situation which directly impacts the kind of entertainment we get to see. Can comedy survive if they don't get our jokes in Seoul or allow them in China? Why are studios making fewer movies than ever—and why are they bigger, more expensive and nearly always sequels or recycled ideas? Obst writes with affection, regret, humor and hope, and her behind-the-scenes vantage point allows her to explore what has changed in Hollywood like no one else has. This candid, insightful account explains what has happened to the movie business and explores whether it'll ever return to making the movies we love—the classics that make us laugh or cry, or that we just can't stop talking about.

The star of HGTV's *Hidden Potential* and *HELP! I Wrecked My House* offers a rare glimpse behind the TV show curtain, inviting readers into her world with super-simple advice that takes all the guesswork and stress out of any home project. "Renovating a home can be mega intimidating, but not if you surrender to the wisdom of your new guru, Jasmine Roth. She knows all."—Jonathan Adler *Finding your style is the first step to creating your dream home, whether you're buying a new place, designing ground-up construction, or simply sprucing up the décor on a rental. Through her clear descriptions of four common design types and their many style subsets, along with thought-provoking questions and worksheets, Jasmine helps you create a cohesive feel with your home décor. She also includes helpful information on curb appeal and outdoor lighting (the most forgotten detail of your home), the science of knocking down walls, creative solutions to the five most common layout needs, floor finishes and wall treatments, everything kitchen and bathroom, and fun ways to personalize your space with DIY projects and unique bookshelf styling. With hundreds of stunning photographs of Roth-designed interiors, House Story is a lush exploration of what is possible for you and your home, whatever the size and budget.*

NEW YORK TIMES BESTSELLER • The #1 New York Times bestselling author of *World War Z* is back with "the Bigfoot thriller you didn't know you needed in your life, and one of the greatest horror novels I've ever read" (Blake Crouch, author of *Dark Matter* and *Recursion*). **FINALIST FOR THE LOCUS AWARD** As the ash and chaos from Mount Rainier's eruption swirled and finally settled, the story of the Greenloop massacre has passed unnoticed, unexamined . . . until now. The journals of resident Kate Holland, recovered from the town's bloody wreckage, capture a tale too harrowing—and too earth-shattering in its implications—to be forgotten. In these pages, Max Brooks brings Kate's extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the legendary beasts behind it. Kate's is a tale of unexpected strength and resilience, of humanity's defiance in the face of a terrible predator's gaze, and, inevitably, of savagery and death. Yet it is also far more than that. Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the creature known as Bigfoot walks among us—and that it is a beast of terrible strength and ferocity. Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and fiction, this is a Bigfoot story as only Max Brooks could chronicle it—and like none you've ever read before. Praise for *Devolution* "Delightful . . . [A] tale of supernatural mayhem that fans of King and Crichton alike will enjoy."—Kirkus Reviews (starred review) "The story is told in such a compelling manner that horror fans will want to believe and, perhaps, take the warning to heart."—Booklist (starred review)

The year was 2014. We had cured cancer. We had beat the common cold. But in doing so we created something new, something terrible that no one could stop. The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies - Brazil, India, and the United States - now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology."DARK END OF SPECTRUM will make you think twice before turning on your cell phone or PDA!DARK END OF THE SPECTRUM is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture.DARK END OF THE SPECTRUM is a thriller that will connect with everyone with a cell phone, PDA or wireless device.When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum - bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses, ICER destroys most of the downed aircraft in airports all over the country. When ICER sends a pulse that will kill millions on the East Coast, only security expert Dan Riker can stop them, but ICER has kidnapped Dan's family.Will Dan save his family or will millions die?
