On the Road to Shiraz, the Heart of Iran

Service, repair and maintenance manual.

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: ... I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.

Color for Impact deserves to be within reach of every editor and desktop publisher's computer.

It encourages newcomers to think about colour in new ways and reminds experienced designers that colour can be a two-edged sword: it can as easily obscure a message as drive it home. In either case, by focusing on the message and the communication, rather than what Jan White calls the "decorative" aspects of colour, Color for Impact will help you to take advantage of the reduced costs and increased availability of colour at all levels. Contents: Getting the Best Out of Colour; Ten Commandments on Using Colour; Where to Use Colour; How Much Colour to Use; Copying Colour in Black-and-White; Making the Most of Colour; Which Colour to Choose; Combining Colours with Colours; Colour and Panels; Colour and Pictures; Colour and Type; How Words, Shape, Space, and Colour Produce Impact; Technicalities About Colour.

Triumph Bonneville

Monographien und Periodika -- Fünfjahresverzeichnis. Reihe E

"Falling in love with Ben Kiem, despite his rowdy pranks and bad-news friends, sensible Linda Eicher must make a difficult decision when a heartbreaking misunderstanding comes between them"--

Triumph Bonneville: 60 Years is a celebration one of motorcycling's most iconic and beloved bikes. First manufactured in Great Britain in 1959, Triumph's legendary model resonates deeply with motorcycle enthusiasts worldwide who love its style, sound, performance, and undeniable coolness. It's no surprise that Triumph was Steve McQueen's favorite ride. The Bonneville's story is one of successes and challenges as Triumph grew steadily in the post-World War II decades to become America's most successful "import" motorcycle marque. Triumph won every championship worth winning, owned the world speed record for fifteen years, and wooed Hollywood's hottest stars. Bonneville was Triumph's halo machine, one of the highest performance motorcycles of the 1960s. However, as competing marques eventually eclipsed the Bonneville in the 1970s, Triumph management struggled, leading first to bankruptcy and then to the demise of the company in 1983. Triumph was resurrected by British industrialist John Bloor in the late 1990s to become a twenty-first century global success story, which includes a revived and thoroughly retro-contemporary Bonneville range.

Illustrated in full colour throughout, each entry includes a detailed specification table and authoritative performance figures.

The line-up features outstanding machines famed for their performance, technical brilliance and good looks.
