

Yellow Kayak

Completely updated yet again, the latest edition of Canoeing & Kayaking Florida is the most comprehensive guide to the best of Florida's unique streams, springs, creeks, and rivers. Engaging and concise, yet filled with carefully selected details vital to any successful Florida paddling adventure, Canoeing & Kayaking Florida spares readers encyclopedic fluff in favor of practical, no-nonsense information. With expanded regional maps and revised river maps, Canoeing & Kayaking Florida is simply the best and most informative Florida paddling guide available. Several new paddling destinations have been added to this latest edition, including waterways like Shingle Creek, where a swift stream swishes through a cypress forest. Then there's quiet coastal Shell Creek and the mighty Apalachicola River, a big water destination with big sandbars, big hills, and a fast current compared to more intimate Florida waterways. Still other new streams await your arrival. For over 30 years, Canoeing & Kayaking Florida has provided the essential information needed to paddle the waterways of Florida. Paddling has grown steadily in Florida due in part to this excellent guidebook, the establishment of paddling clubs, the positioning of outfitters on rivers, and population growth. The rise in the use of recreational kayaks has also led to the rebirth of paddling's popularity. Let Canoeing & Kayaking Florida be your guide to the paddling possibilities in the Sunshine State.

Within about seventy-five miles of downtown Houston, some 1,500 miles of rivers, creeks, lakes, bayous, and bays await discovery. Canoeing and Kayaking Houston Waterways, by longtime paddler Natalie Wiest, is the perfect companion for anyone who wants to experience Houston's well-watered landscape from the seat of a kayak or canoe. Before introducing readers to the quiet, green world that lies within and around the heart of the city, Wiest gives some pointers on water safety (including swimming and boating); on weather, flood stages, and legal access; and on an often unseen but always present paddling companion—alligators. She also provides a gear checklist for a day trip, a brief guide to boats and paddles, and a "sampler" list of easy places to paddle for true beginners. Presented in nine chapters, each organized around a river system or coastal basin and comprising a "suite" of paddling trips, the excursions described by Wiest offer a general description of the destination, directions (both driving and paddling), and details about the paddling conditions and access sites, which are all publicly owned or managed. Each chapter lists mileages, USGS gauging station numbers, and GIS locations when applicable. Also including ninety color photos and more than thirty detailed maps, Canoeing and Kayaking Houston Waterways offers both novice and experienced paddlers a helpful and enjoyable reference for experiencing nature at water level, in and around Houston. To learn more about The Meadows Center for Water and the Environment, sponsors of this book's series, please [click here](#).

In the summer of 1987 Ed Gillet achieved what no person has accomplished before or since, a solo crossing from California to

Hawaii by kayak. Gillet, at the age of 36 an accomplished sailor and paddler, navigated by sextant and always knew his position within a few miles. Still, Gillet underestimated the abuse his body would take from the relentless, pounding, swells of the Pacific, and early into his voyage he was covered with salt water sores and found that he could find no comfortable position for sitting or sleeping. Along the way he endured a broken rudder, among other calamities, but at last reached Maui on his 63rd day at sea, four days after his food had run out. Dave Shively brings Gillet's remarkable story to life in this gripping narrative, based on exclusive access to Gillet's logs as well as interviews with the legendary paddler himself.

Teelo the cat is disturbed by his owner's habit of acquiring other people's pets, but he changes his mind about the noisy brood after a kayaking trip with his owner to Thunder Rock. Simultaneous.

Brady loves life on the Chesapeake Bay with his friends J.T. and Digger. But developers and rich families are moving into the area, and while Brady befriends some of them, like the DiAngelos, his parents and friends are bitter about the changes. Tragedy strikes when the DiAngelos' kayak overturns in the bay, and Brady wonders if it was more than an accident. Soon, Brady discovers the terrible truth behind the kayak's sinking, and it will change the lives of those he loves forever. Priscilla Cummings deftly weaves a suspenseful tale of three teenagers caught in a wicked web of deception.

At once feared and revered, sharks have captivated people since our earliest human encounters. Children and adults alike stand awed before aquarium shark tanks, fascinated by the giant teeth and unnerving eyes. And no swim in the ocean is undertaken without a slight shiver of anxiety about the very real—and very cinematic—dangers of shark bites. But our interactions with sharks are not entirely one-sided: the threats we pose to sharks through fisheries, organized hunts, and gill nets on coastlines are more deadly and far-reaching than any bite. In *Sharks and People* acclaimed wildlife photographer Thomas Peschak presents stunning photographs that capture the relationship between people and sharks around the globe. A contributing photographer to *National Geographic*, Peschak is best known for his unusual photographs of sharks—his iconic image of a great white shark following a researcher in a small yellow kayak is one of the most recognizable shark photographs in the world. The other images gathered here are no less riveting, bringing us as close as possible to sharks in the wild. Alongside the photographs, *Sharks and People* tells the compelling story of the natural history of sharks. Sharks have roamed the oceans for more than four hundred million years, and in this time they have never stopped adapting to the ever-changing world—their unique cartilage skeletons and array of super-senses mark them as one of the most evolved groups of animals. Scientists have recently discovered that sharks play an important role in balancing the ocean, including maintaining the health of coral reefs. Yet, tens of millions of sharks are killed every year just to fill the demand for shark fin soup alone. Today more than sixty species of sharks, including hammerhead, mako, and oceanic white-tip sharks, are listed as vulnerable or in danger of extinction. The need to understand the significant part sharks play in the oceanic ecosystem has never been so urgent, and Peschak's photographs bear witness to the thrilling strength and unique attraction of sharks. They are certain to enthrall and inspire. The first quick-and-easy composite construction method for canoes and kayaks This book is

certain to appeal to any paddler with a DIY bent. Master craftsman Sam Rizzetta presents three attractive innovations: a new building method that makes Kevlar and carbon-fiber boats cheap and feasible for home builders; an ergonomically designed canoe that makes paddling easier and more comfortable; and a foam-flotation installation method that makes canoes and kayaks safe and unsinkable.

From the Appalachian highlands to the Gulf Coast, this updated and revised guide offers opportunities for kayakers, canoers, rafters, rowers, and water-adventurers of every interest and ability-level. Each paddle destination is described in detail, with maps for specific routes, waterway overviews, and paddle descriptions to prepare paddlers for whatever is just beyond each river bend.

In *The Silent Sister*, Riley MacPherson has spent her entire life believing that her older sister Lisa committed suicide as a teenager. Now, over twenty years later, her father has passed away and she's in New Bern, North Carolina cleaning out his house when she finds evidence to the contrary. Lisa is alive. Alive and living under a new identity. But why exactly was she on the run all those years ago, and what secrets are being kept now? As Riley works to uncover the truth, her discoveries will put into question everything she thought she knew about her family. Riley must decide what the past means for her present, and what she will do with her newfound reality, in this engrossing New York Times bestselling mystery from Diane Chamberlain.

" ... [This book] leads you step-by-step through the process of creating your own lashed-frame, fabric-covered, custom-fitted Greenland kayak, using inexpensive, easy-to-find materials and common woodworking tools. ..."--Back cover.

Canoeing and Kayaking New York includes descriptions of 50 of the best trips on New York's dozens of rivers. Along with runs for both experienced paddlers and novices and profiles for both over-nighters and short, round-trip day paddles, this book contains all the information necessary for a safe, enjoyable trip. Kevin Stiegelmaier combines information about tides, river gauges, GPS waypoints, and maps with personal anecdotes, historical trivia, and descriptions of local plants and animals, sprinkled with a touch of humor.

Area native Michaela Riva Gaaserud provides travelers with an insider's perspective on one of the nation's most historically significant states. An experienced guidebook author, Gaaserud offers up original trip ideas to help visitors make the most of their time, such as *Charm City: Two Days in Baltimore*. With comprehensive coverage for all interests—from seeing the wild ponies of Assateague Island to visiting Antietam National Battlefield to strolling Embassy Row in Washington DC—*Moon Maryland* gives travelers the tools they need to create a more personal and memorable experience.

Dear Little One

A child and his beloved best friend go on a grand sea adventure in this magical picture book by the author and artist who created If I Had a Little

Dream. You just never know what a new day will hold if you are brave enough to find out. On one quiet afternoon, a boy and his special friend's unexpected adventure bring joy and excitement and sights never imagined. And the best part of any adventure is returning home with stories to tell and your best friend at your side.

A soft cover journal featuring a sports yellow kayak pattern with rainbow colored kayaks. The pages inside include lined paper with a black border and kayaks. You can use this for anything you like such as passwords, diary, recipes, dreams and all your writing needs. Sporty and trendy kayaking notebook. Kayak gift ideas for women and men. Ideal for people who love water sports.

THE GRAPHIC DESIGNER'S DIGITAL TOOLKIT, 6th Edition not only introduces readers to the essential features of industry-standard software applications, but also gives them an understanding of how to integrate these programs into a seamless whole. Using a highly visual and project-based approach, this fully revised new edition examines Macintosh OS X Lion and Windows 7 operating systems, as well the "Big 3" digital design programs used in the graphics industry today: Adobe Illustrator CS6, Adobe Photoshop CS6, and Adobe InDesign CS6. After thoroughly examining the features of each application from the designer's perspective, the author then reveals in practical detail the traditional skills and technology necessary for effective design for print and Web media. Using online project files, readers are encouraged to practice what they have learned by tackling design projects throughout the text from concept to completion. Effectively merging theory with practice, THE GRAPHIC DESIGNER'S DIGITAL TOOLKIT, 6th Edition stresses the critical importance of integration in design while meeting design parameters and client expectations. For access to the online project files please refer to the directions in the preface of the book. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This journal with 150 ruled pages awaits your writing pleasure. You can use it to record your hopes and dreams, express your gratitude, to keep a bucket list, as a daily diary, or to jot down your "To-Do" lists. The possibilities are endless and the choice is all yours. Enjoy!

29 STORIES THAT ILLUSTRATE WHAT CAN HAPPEN WHEN SAFETY IS LEFT ON SHORE
Sea Kayaker's Deep Trouble was a bestselling warning to kayakers: Do not let ignorance or arrogance get you hurt or even killed. Thousands heeded Deep Trouble's tales of tragedy; but even with the benefits of evolving technology and more safety options, kayakers still fall prey to human error. To renew the cautious attitude of seasoned paddlers and to instill safe practices in kayaking newbies, Sea Kayaker's More Deep Trouble presents more stories of kayaking trials, rescues, and tragedy. In these 29 stories collected from Sea Kayaker magazine, survivors and witnesses tell of their experiences with the dangers and risks of kayaking. You will feel the cold rush of water when paddlers fall in, the panic they feel when they do not know how to rescue themselves, and the anxiousness of loved ones waiting to hear any news. You will learn how whale watching could cost you your life, how life-saving electronics are only as good as the batteries you have in them, and how a float plan can initiate a timely search and rescue. End-of-story Lessons Learned summaries suggest what to do if you find yourself in similar unfortunate situations. Read these tales, understand the lessons learned in these incidents, and respect the advice given as you take your next kayaking adventure. This tome of danger and survival may ultimately save your life.

Like the instant classic *The Last American Man, Fearless* is the story of a remarkable individual who accepts no personal limits—including fear. Freya Hoffmeister, a forty-six-year-old former sky diver, gymnast, marksman, and Miss Germany contestant, left her twelve-year-old son behind to paddle alone and unsupported around Australia—a year-long adventure that virtually every expert guaranteed would get her killed. She planned not only to survive the 9,420-mile trip through huge, shark-infested seas, but to do it faster than the only other paddler who did it. As journalist and expert kayaker Joe Glickman details the voyage of this Teutonic force of nature, he captures interminable days on the water and nights camped out on deserted islands; hair-raising encounters with crocs and great white sharks; and the daring 300-mile open-ocean crossing that shaved three weeks off her trip. For 332 days Glickman followed Freya's journey on her blog—along with a far-flung audience of awestruck, even lovesick, groupies—as she took on one terrifying ordeal after the next. In the end, he says, “her vanity and pigheadedness paled next to her nearly superhuman ability to master fear and persevere.”

This journal with 150 ruled pages awaits your writing pleasure. Unplug and enjoy the process! Use it to record your hopes and dreams, express your gratitude, or to jot down your thoughts and inspirations. The choice is yours. Enjoy!

Advice from expert contributors throughout adds full range of experience

The latest addition to the award-winning Mountaineers Outdoor Expert series, Sea

Kayaking: Basic Skills to Advanced Paddling Techniques, offers authoritative

advice for paddlers of all levels, from beginners considering their first gear

purchase to competitive kayakers looking to perfect their forward stroke. As a

longtime paddling professional and National Team coach, author Dan Henderson

draws from a lifetime of personal experience, teaching, and his academic research

in exercise science to instruct readers on everything they need to know to get out

*on the water, including: * Gear -- how to pick the right kayak for your body size,*

*skill level, and lifestyle * Foundations of safety, how to plan and prepare, and must-know advice for assisted and self-rescue * Basic paddling styles to advanced techniques (side slipping, edging, bracing) * Techniques for a range of conditions caused by wind, waves, currents, swells, and more * Expedition planning and camping * Getting the most out of kayaking for fitness* “Dan’s participation in paddlesports is celebrated by a lifetime of contribution to the sport, friendships that span the globe and professional success across all disciplines of paddling. The opportunity to learn from Dan’s experience will only add to your enjoyment and success in the sport.” -- Joe Jacobi, Chief Executive Officer USA Canoe/Kayak

During the summer of 1991 Victoria Jason embarked on a journey together with Don Starkell (author of the bestselling Paddle to the Amazon) and Fred Reffler to kayak the Northwest Passage, starting at Churchill, Manitoba and aiming to reach Tuktoyaktuk on the Beaufort Sea. When she set out in 1991, Victoria, already a grandmother of two, had only been kayaking for a year and was still recovering from the second of two strokes. Her 7,500 kilometre journey lasted four years. In the first year, Fred Reffler dropped out due to an injury, and Victoria suffered serious internal bleeding from ulcers. The second year Victoria and Don reached Gjoa Haven together, hauling their kayaks by sled, but Victoria was forced to drop out there, suffering from edema (muscle breakdown) caused by excessive fatigue. Don Starkell continued alone, reaching the Tuktoyaktuk Peninsula, where he was rescued by authorities suffering from severe frostbite which resulted in the loss of all his fingers and parts of four toes. Their first two summers together were also a time of tension and conflict between Victoria and Don. Not content with failure, Victoria returned North the following two years and completed her triumphant journey alone from west to east, paddling from Fort Providence on the Mackenzie River to Paulatuk in 1993, and from Paulatuk to Gjoa Haven in 1994. Among the Inuit people she became known as the Kabloona (the Inuktituk word for stranger) in the Yellow Kayak.

No Barriers is about my journey since coming down from Mt. Everest in 2001, and the path to where I am today. It is the story of my own life, the personal and professional struggles in the pursuit of growth, learning, and family, as well as a dream to kayak one of the world’s great rivers as a blind athlete. It is also about the many people I’ve encountered along the way who possess what I call a “No Barriers” mindset, who live a No Barriers life. It highlights these pioneers who give those around them the courage to do great things. People who have risked failure, transcended their personal barriers, and shown others a way forward: scientists and innovators, artists and musicians, climbers and adventurers, activists and soldiers. No Barriers is a way of living, and it exists in all of us, like a deep internal light. But sometimes through trauma, loss, isolation, and disillusionment, people get shoved into a dark place, and that light is almost extinguished. Making hard choices is what feeds that light, and becomes the energy we need to propel us forward. This book is about making the hard choices to fuel that flickering light, so that we can ignite with purpose and become our very best selves.

The reader can look through die-cut pages for a visual clue to complete a game of peek-a-boo. Full color illustrations plus a mylar mirror. 11 spreads.

Celebrate the wonder of the world in this reassuring picture book about the joy, love, and beauty found in each and every day. From the treasure of flowers to the mystery of insects, this lyrical book encourages children to explore the natural world around them and to be grateful for all that surrounds them. With jewel-like artwork, every page is a treasure for children just born or exploring the world full of possibilities we all share.

A guide to conducting safe and successful kayak expeditions discusses equipment and supplies, paddling techniques, navigating river hazards, planning a trip, and handling different weather and water conditions

There are five layers of the ocean, though most of us alive will only ever see one. The deepest layer of the ocean is called by some the midnight zone. The only light comes from bioluminescence, created by animals themselves. In order to see, the creatures there must create their own light. They must move like solitary suns, encased in their own bubbles of freezing water. This layer is the most completely unexplored zone on the planet. Though it is hostile to humans, it also is fascinating beyond belief. If you had a chance to see it, wouldn't you want to go there? The year Mary is 38, the suicide of a stranger in a nearby reservoir compels her to make a change. She decides to strike out for Alaska and take a chance on love and home. She begins to learn how to travel in a small yellow kayak along the coast, contending with gales, high seas, and bears. She explores the different meanings of home: the perspectives of people who were born in this place and others who chose it, the first peoples who have been here for generations, and the ones who

eventually leave. When she marries a man from another island, she is convinced that this time love will stick. She soon learns that navigating marriage is just as difficult as learning the ocean. Divided into sections detailing the main kayaking strokes, this memoir shows how each can be a metaphor for the lives we all pass through and the tools we need to stay afloat.

How to Build Tough, Super-Safe Boats in Kevlar, Carbon, or Fiberglass

The Classic Manual for Touring, from Day Trips to Major Expeditions

Canoeing and Kayaking New York

A Cat in a Kayak

Canoeing and Kayaking Houston Waterways

Building the Greenland Kayak

Still regarded as “ the bible ” for both new and experienced kayakers after more than thirty years in print, Sea Kayaking covers the basics of equipment and technique, including types of paddles and strokes, as well as such essential skills as how to read the weather and the water, how to navigate with and without GPS and how to travel with a group. Drawing on his many years of experience paddling in all climates, John Dowd presents practical advice on dealing with potential hazards (from surf to sea ice to sharks), carrying out rescues and planning for long-distance expeditions. New for this edition are hints about digital technologies for planning and navigating while kayak touring as well as lots of tips for outfitting boats, adapting equipment and finessing fishing technique while kayak angling—whether casting and jigging for fun on a day trip or trolling for dinner on a longer expedition. Also fully updated are the sections on managing risk and the inspiring stories of adventure, including Freya Hoffmeister ’ s record-breaking circumnavigation of Australia and Japanese paddlers ’ increasingly challenging trips around the islands and beyond. As a sport, sea kayaking continues to evolve. Once the sport of a very few long-distance paddlers embarking on international expeditions, then the recreational pursuit of many weekend tourers, sea kayaking is now popular with many day trippers as well. As more and more paddlers take to the water—for the day, the weekend or many months, this classic guide continues to be required reading for those seeking adventure on the open ocean.
