Sullivans' School Series - Sullivan, Brothers 1905

Sci Fi Short Stories - Celesta Thiessen 2012-05-25

Sci Fi Short Stories is a collection of eight, inspirational science fiction stories: Mirror Mind Sync The Ring Mercy Falls Promise Our Future Mail Order Dragon Poison Dragon Poison When the generational ship is bleeding air, the colonists escape to a habitable but strangely deserted planet. A power failure turns things towards darkness that only deepens when they begin to discover the truth. Cherish knows she's racing the clock as she tries to help develop a cure before it's too late to save their children. This book is rated 12+

A Latin Grammar for Beginners - William Henry Waddell 1871

Lo-Fi - Michael Whone 2022-07-26

"A depraved and offbeat leap out of the fifth wall straight into the loony bin." "An unofficial love letter to Anaïs Nin, inspired by her three novelettes in 'Winter of Artifice,' and her literature about a writer's experiences in psychotherapy." An art designer, and music critic at a Toronto music venue, is tracing an almost famous indie rock band, but he's about to become a two-time Master of Fine Arts dropout. In a drunken interview with Guerin Tracy, a semi-famous indie rocker, the interview goes sour when Ox mentions Guerin's infamous Kikkoman Soy Sauce t-shirt that turns out, doesn't fit anymore. Mid-life crisis in bloom, Ox starts to question whether society's distortions, or his own, are detaining him in this hell-bent journey to find a high fidelity, distortion-free existence. A handful of dead-end romantic relationships further drive him into his toxic, yet uniquely magic-sprung brand of disillusionment. When the magic for Ox and his eccentric good intentions start conspiring against him like a scoundrel ex-girlfriend, he finds satisfaction in knowing he's learned to accept a future that's totally distorted. This amp-cranked, rock and rolling psychological fiction is a transgressive meditation of an ex-musician, turned writer, searching for profound connections from within the desolation of the inner-workings of the music industry, psychotherapy, and in and out of a Toronto psychiatric institution. Luckily, there's a sophisticated love interest he knows he can always turn to as his muse: the timeless voices of the legendary female writers for whom he elicits a quirky yearning and affinity.

An Analytical Digest of the Law and Practice of the Courts of Common Law, Divorce, Probate, Admiralty and Bankruptcy, and of the High Court of Justice and the Court of Appeal of England - Ephraim Arnold

Jacob 1881

Choose FI - Chris Mamula 2019-10

Now available for Pre-Order! A common resolution set at the beginning of a new year is to "get my financial house in order." But how can you build a house, let alone pour any kind of foundation, without a blueprint? There are dozens of books and gurus trying to push their advice and tell you how to spend and invest your money. And then, there are three suburban dads just trying to make the world a little bit better. Meet Brad Barrett and Jonathan Mendonsa of the award-winning ChooseFI podcast and Chris Mamula of

the popular blog "Can I Retire Yet?". They have walked the talk and now want to share their knowledge with you. Together, these three regular guys will show you how they did something extraordinary. They are all financially independent and doing meaningful work that fulfills them. All three left their corporate 9 to 5 jobs and are reaping the benefits of extra time with their families. Mirroring the format of the popular ChooseFI podcast, this book pulls from the collective knowledge of those who have decided to build a lifestyle around their passions instead of allowing their finances to dictate their future. These stories demonstrate universal principles, giving you the opportunity to pick the elements that are the most applicable to your financial situation and "choose your own adventure." The book covers a wide range of topics that will help you build a strong financial foundation: Developing a growth mindset Defining your values and aligning them with your spending Cutting years from your estimated retirement date Questioning the status quo on "required expenses" Cutting travel expenses and putting family vacations within your reach Learning how to earn more and live with abundance Updating the commonly accepted wisdom on college education and the debt associated with it Cutting through the noise on investing to discover strategies that work Showing how to implement investment strategies that enable the lifestyle you desire while controlling downside risk FI or Financial Independence is the new debt-free and getting back to 0 is just the beginning of a wonderful journey. Whether you have mountains of debt now or are recently debt free and wondering what to do next, Choose FI: Your Blueprint to Financial Independence will give you the information to guide your next move.

Manis Valuations and Prüfer Extensions II - Manfred Knebusch 2014-03-20

This volume is a sequel to “Manis Valuation and Prüfer Extensions I,” LNM1791. The Prüfer extensions of a commutative ring A are roughly those commutative ring extensions R / A , where commutative algebra is governed by Manis valuations on R with integral values on A . These valuations then turn out to belong to the particularly amenable subclass of PM (=Prüfer-Manis) valuations. While in Volume I Prüfer extensions in general and individual PM valuations were studied, now the focus is on families of PM valuations. One highlight is the presentation of a very general and deep approximation theorem for PM valuations, going back to Joachim Gräter's work in 1980, a far-reaching extension of the classical weak approximation theorem in arithmetic. Another highlight is a theory of so called “Kronecker extensions,” where PM valuations are put to use in arbitrary commutative ring extensions in a way that ultimately goes back to the work of Leopold Kronecker.

The Rule of the Machines: 5 Sci-Fi Titles in One Edition - Philip K. Dick 2023-11-30

This eBook has been formatted to the highest digital standards and adjusted for readability on all devices.

Second Variety – A nuclear war between the Soviet Union and the West has reduced much of the world to a barren wasteland. The war continues, however, among the scattered remains of humanity. The Western forces have developed "claws", which are autonomous self-replicating robots to fight on their side... The Last of the Masters – An old and ageing robot is a benevolent dictator of the last remnants of humanity, but the Anarchists want him gone. Will the machines and humans ever understand each other? The Defenders – The USA and Soviet Union are engaged in a long nuclear war, but can the robots defend the humanity or be the end of it? Sales Pitch – An unwanted sales-pitching robot is the sole company of his master on a long flight... James P. Crow – Robots have totally moved the society away from war and anarchism but the humans begrudge being inferior to them. It now remains up to James P. Crow to remove the robots from the earth and "de-integrate" the society...
